

Part 1 General

1.1 RELATED SECTIONS

- .1 Section 01 33 00 - Submittal Procedures.
- .2 Section 01 74 21 - Construction/Demolition Waste Management And Disposal.

1.2 REFERENCES

- .1 Canadian Standards Association (CSA International)
 - .1 CSA S350-M1980(R2003), Code of Practice for Safety in Demolition of Structures.

1.3 SUBMITTALS

- .1 Submit shop drawings in accordance with Section 01 33 00 - Submittal Procedures.
- .2 Before proceeding with demolition of walls and where required by authority having jurisdiction submit for review by Departmental Representative shoring and underpinning drawings prepared by qualified professional engineer registered or licensed in the Province of Nova Scotia, in Canada showing proposed method.
- .3 Prior to beginning of Work on site submit detailed Waste Reduction Workplan in accordance with Section 01 74 21 - Construction/Demolition Waste Management and Disposal.

1.4 WASTE MANAGEMENT AND DISPOSAL

- .1 Separate waste materials for reuse and recycling in accordance with Section 01 74 21 - Construction/Demolition Waste Management And Disposal.

1.5 SITE CONDITIONS

- .1 Should material resembling spray or trowel-applied asbestos or other designated substance listed as hazardous be encountered, stop work, take preventative measures, and notify Departmental Representative immediately.
 - .1 Do not proceed until written instructions have been received from Departmental Representative.
- .2 Notify Departmental Representative before disrupting building access or services.

Part 2 Products

2.1 NOT USED

- .1 Not used.

□

Part 3 Execution

3.1 PROTECTION

- .1 Do Work in accordance with Section 01 35 29 - Health and Safety Requirements.
- .2 Prevent movement, settlement, or damage to adjacent structures, utilities, and parts of building to remain in place. Provide bracing and shoring required. Keep noise, dust, and inconvenience to occupants to minimum. Protect building systems, services and equipment. Provide temporary dust screens, covers, railings, supports and other protection as required.

3.2 DEMOLITION SALVAGE AND DISPOSAL

- .1 Remove parts of existing building to permit new construction. Sort materials into appropriate piles for reuse and recycling.
- .2 Refer to demolition drawings and specifications for items to be salvaged for reuse. Remove items to be reused, store as directed by Departmental Representative, and re-install under appropriate section of specification.
- .3 Trim edges of partially demolished building elements to tolerances as defined by Departmental Representative to suit future use.
- .4 Dispose of removed materials, to appropriate recycling facilities except where specified otherwise, in accordance with authority having jurisdiction.

3.3 PARTIAL DEMOLITION OF STRUCTURES

- .1 Removal of siding to facilitate the installation of new masonry veneer detail.
- .2 Removal of siding to install 2 new canopies. Removal of existing gutters and downspouts in preparation for installation of new gutters and downspouts.
- .3 Removal flashings at the roof wall intersection over the entire building before installing new gutters and downspouts.
- .4 Removal of all existing personnel doors and sidelites in preparation for the installation of new personnel doors and sidelites.
- .5 Removal of flashing at the roof/wall intersection over the Yard Crew Room roof in the west elevation (over the entire room length)
- .6 Remove damaged overhead door guards (interior) as detailed on the finish schedule.
- .7 Removal of gypsum board and base at the base of the interior wall around the perimeter of the Buoy Tool Storage Room.
