Amendment 002 – Solicitation # EZ108-180868 Esquimalt Graving Dock – Steel Work Boat

Solicitation amendment required to address the following revisions;

1. ANNEX B – BIDDERS' QUESTION & CANADA'S ANSWERS

Question Number	Section	Specification	Bidder Questions	Canada responses
1		Solicitation	Can the Delivery date be extended?	Yes, the final delivery date has been extended to 21 February 2018.
2	4.1	Admin	Can you supply us with the cut files for the vessel in advance of the closing?	No, the cut files will be provided to the successful bidder after Contract award. A material take off of the steel including sizes, dimensions, quantities etc. will be provided to all bidders shortly.
3		SOW	The statement of work states that all of the specified equipment and machinery can be substituted with equivalent types of machinery and equipment for example engines and drives and other items. a.If we choose to go with an equivalent unit do we need to obtain approval prior to the bid? b.Can we propose any modifications to the design or propulsion prior to bid?	a.Yes, any substitutions must be fully equivalent in fit, form and function. They must be approved prior to bid closing. b.No, we are not looking for proposals, this is an Invitation to tender to build a vessel as designed and specified.
4		SOW	Q. As the drawings are for guidance and we have reviewed the drawings and feel we may want to do our own lofting for the vessel. Is this acceptable?	A. Yes, it is acceptable that you do your own lofting however the critical point of this vessel design is the Gross Registered Tonnage must be as close as possible to 5 GRT without exceeding the value. The bidder must be prepared to guarantee that by doing their own lofting, their vessel will meet this mandatory requirement.
5	2.3	SOW	Q. As the SOW for the vessel states that the supplied drawings are for guidance only 2.3. Please confirm that the contractor is responsible to develop a complete set of engineered for construction drawings for TC approval and be responsible that the vessel meets all of the criteria as stated in the SOW including stability and other performance criteria	A. The Contractor is not responsible to develop drawings. As per the SOW 5.1.2.3, the Contractor must report any deviation

				from the guidance drawings to the Technical Authority to enable the production of As-Built drawings <u>by the Owner</u>
6	5.1.2		Item 5.1.2 the requirement is for all documentation to be in French and English. Is it possible to waive the French language requirement for all or any of the documents listed? Many items may not be readily available in French language and may require direct translation that can be very expensive and outside of our expertise. If the French language requirement cannot be waived could it be a separate contract outside of this solicitation.	See revision #2

2. Revision to Annex A: SOW clause 5.1.2 has been revised as per Q&A # 6:

DELETE:

5.1.2. Manuals / Technical Publications

All documentation must be provided in both official languages (French and English).

INSERT:

5.1.2. Manuals / Technical Publications

All documentation must be provided in English. (French language versions to be provided if available).
