This solicitation amendment is raised to provide the question and answer set #2:

Question and Answer set #2

Question 1

We are confused as to whether your request is for the complete makeup of glass with frame or glass only as your answer implements? And if they do require frames what is the material required and will they be bolt or weld installed?

Answer 1

Coast Guard requires the replacement of the glass panes for the windows identified in Table 1 as well as all seals for the installation of the glass panes within each existing window frame. This includes all seals between the frames and the glass panes as well as between the glass panes and any mullions, handles and hardware fitted to the identified glass panes. The new glass panes will be fitted to the existing window frames. The portion of the window frames fitted to the ship structure will remain in place. The Contractor must plan on removing and re-installing the retaining rings inside the wheelhouse to gain access to the glass panes as per Annex A.

Question 2

Do you plan to reuse the frames of the windows?

Answer 2

Refer to Q&A 1

Question 3

Do you want new complete configurations or partials?

Answer 3

Refer to Q&A 1

Question 4

How do you plan to do that? Aren't some weld and some bolt installed? Are you going to pull them and ship them to use for manufacturing?

Answer 4

Refer to Q&A 1

Question 5

Are you not looking for new windows to replace the old bad windows?

Answer 5

Refer to Q&A 1
