La modification qui suit apportée aux documents de soumission entre en vigueur dès maintenant.
L'addenda fera partie des documents de contrat.

Toutes autres conditions ne changent pas.

Addenda numéro 7.

1. QUESTIONS / RÉPONSES

AUCUNE autre question / demandes d'approbation de matériaux de remplacement seront acceptées pour ce projet.

Q1. We wish to submit a request to have our buff and / or olive Dorchester Sandstones from our Dorchester Quarries approved as an alternate replacement sandstone material for project # R.061898.001 - Dorchester Penitentiary West Perimeter Wall Rebuild.

R1. The Dorchester Stone may be submitted for consideration, but must meet requirements as indicated and specified.

Q2. . In cabling specifications for category 6 cabling part number 7931A has been specified and meets outdoor applications however outdoor cable is NOT often offered in any other colors other than Black and so the request for Green outdoor cable will NOT be able to be met. Can you please confirm that for Category 6 cabling for outdoor locations that the part number specified shall be used and the color requirement can be ignored as manufactures do NOT offer the specified or equal in colors other than Black? Ref URL:

<http://www.belden.com/techdatas/metric/7931A.pdf>

R2. You are to use the colors specified as it is going in conduit and the colors are to differentiate between systems.

Q3. In cabling specifications for fiber optic cabling it requests outdoor rated fiber optic cabling, often if not always this fiber is NOT offered in colors other than black (for outdoor) and Aqua for indoor as jacketing is black for UV resistance or Aqua to identify that it is Lazer Optimized 50uM. Outside of Indoor rated Category cabling jacket coloring is NOT often available in specific colors. On previous jobs for the Institution part numbers were provided and were Indoor/Outdoor Fiber and had BLACK jacketing and was acceptable as this is the ONLY option. Conduits used for these applications could have identification tape but that is the only option. Can you please confirm that color requirement for this item is NOT required as option for Green ID/OD fiber is NOT available to my knowledge? Ref url: <http://www.belden.com/techdatas/english/B9C042T.pdf>

R3. You are to use the colors specified as it is going in conduit and the colors are to differentiate between systems.
