**Amendment 004 – Solicitation # EZ108-180868 Esquimalt Graving Dock – Steel Work Boat**

**Solicitation amendment required to address the following revisions **Purple**;**

**1. ANNEX B – BIDDERS' QUESTION & CANADA'S ANSWERS**

Question Number	Section	Specification	Bidder Questions	Canada responses
1		SOW	Can the Delivery date be extended?	Yes, the final delivery date has been extended to 21 February 2018.
2	4.1	Admin	Can you supply us with the cut files for the vessel in advance of the closing?	No, the cut files will be provided to the successful bidder after Contract award. A material take off of the steel including sizes, dimensions, quantities etc. will be provided to all bidders shortly.
3		SOW	The statement of work states that all of the specified equipment and machinery can be substituted with equivalent types of machinery and equipment for example engines and drives and other items.  a.If we choose to go with an equivalent unit do we need to obtain approval prior to the bid?  b.Can we propose any modifications to the design or propulsion prior to bid?	a.Yes, any substitutions must be fully equivalent in fit, form and function. They must be approved prior to bid closing.  b.No, we are not looking for proposals, this is an Invitation to tender to build a vessel as designed and specified.
4		SOW	Q. As the drawings are for guidance and we have reviewed the drawings and feel we may want to do our own lofting for the vessel. Is this acceptable?	A. Yes, it is acceptable that you do your own lofting however the critical point of this vessel design is the Gross Registered Tonnage must be as close as possible to 5 GRT without exceeding the value. The bidder must be prepared to guarantee that by doing their own lofting, their vessel will meet this mandatory requirement.
5	2.3	SOW	Q. As the SOW for the vessel states that the supplied drawings are for guidance only 2.3. Please confirm that the contractor is responsible to develop a complete set of engineered for construction drawings for TC approval and be responsible that the vessel meets all of the criteria as stated in the SOW including stability and other performance criteria	A. The Contractor is not responsible to develop drawings. As per the SOW 5.1.2.3, the Contractor must report any deviation

				from the guidance drawings to the Technical Authority to enable the production of As-Built drawings <u>by the Owner</u>
6	5.1.2		Item 5.1.2 the requirement is for all documentation to be in French and English. Is it possible to waive the French language requirement for all or any of the documents listed? Many items may not be readily available in French language and may require direct translation that can be very expensive and outside of our expertise. If the French language requirement cannot be waived could it be a separate contract outside of this solicitation.	See revision #2
7	3.10	SOW	3.10 states electrical installations must be to transport Canada TP127E and section 4.5 states we are to work in accordance with ABYC standard. What standard applies?	The electrical installation shall be in accordance with TP 1332 and ABYC standards.
8	4.5.1	SOW	4.5.1 states using 4 batteries then goes on to say they are to be connected in 3 series pairs resulting in 24VDC , 594 Ah which would mean 6 batteries are needed. How many batteries are required?	The installation should comprise of 6 batteries providing 594Ah.
9		SOW	Do the cut files include cut outs and brackets for electrical installations?	Cut files will be provided for hull and superstructure only. No cut outs for panels, brackets for navigation lights etc. will be provided.
10	4.5.10.4	SOW	Searchlights – what is the specified light?	See Revision #3 below
11	4.8		Does the interior need to be painted?	Yes, the interior of the engine room and the wheel house should be white. The rest of the void spaces can be light grey.
12			Do you require certificates for our ABYC certified electrical technicians?	All certificates (electrical, welding etc.) will be required for presentation at the commencement of the build project
13			Where is that panel to be located <u>or</u> can the 120 volt panel that is specified be substituted to allow for distribution of the above listed components at this point?	The panel to be located in the wheel house and the specified panel can be substituted to allow for the added function above.
14	4.8		Do the square foot amounts currently in the bid include the interior areas for the purpose of the bid?	No, The hull interior has an area of 76.71m2 which includes the underside of the deck but no structure.
