

Clean Technology Data Strategy – Developing Industry Level Data Through Company-Based Characteristics

RFP-500033488

Q&A – Part 3

Q42. Given the delay in receiving the Q&A's posted on Buy and Sell today and our inability to proceed with working on a our proposal due to the delay, will the Crown please provide a 2 week extension to Tuesday, October 31, 2017?

A32. A 19-day extension to October 17th, 2017 was provided earlier (see response A28). NRCan is of the view that an additional extension (to October 31st, 2017) may compromise the ability of the successful bidder to meet the objectives set under tasks 1 and 2 in 2017-18. As such, an additional extension will not be provided.

Q43. Will the Crown accept the experience of a sub-contractor in fulfilment of the following Criteria M6, R1 and M7, R4 and not in a joint venture?

A43. See response A32.
