

Q&A #1

Date: October 27, 2017

Project: Paving Upgrades

Bidders must make sure that their bids are based on the latest version of the tender documents published and take into consideration the following amendments and information, including any information provided on amendments or Q&A previously published for this project.

Bidders that do not comply with this requirement will be discarded.

Question 1:

Would it be possible to include a permeable, low impact paving alternative into the project, possibly even as a pilot or test area. The product is made in Listowel, Ontario and is heavy duty, winter friendly, permeable, ecofriendly and 100% recycled or recyclable.

Answer 1:

At this time, Agriculture and Agri-Food Canada is looking to pave the area as per the description/method indicated in the specifications.

All other terms and conditions remain the same.
