# Outdoor furniture and amenities: Ideas and Inspiration

Summer 2017

# Notes for Bidders:

This document is intended to show potential Bidders:

- Some examples of what Parks Canada already has available, either as designs, ideas or on-the-ground furniture. Some of these are highly functional already and simply need standardization and branding.
- Representative images of the type of furniture/amenity that the Project team wishes to have designed – most often discovered using internet searches;
- Some ideas and images that the Parks Canada project team researched and felt that the item depicted was attractive, creative, durable-looking etc...

The project team provides these images for inspiration and guidance only, with no intention of copyright or intellectual property rights violation. In many cases, PCA has the manufacturer's information available.

Bidders must also understand that the ideas and inspiration contained within this document should not be considered constraints or limits to new and creative ideas and approaches.

Did you **curl up** with a book?  
Vous y êtes-vous installé **confortablement** avec un livre?

Or, did it simply **lure** you in?  
Ou vous êtes-vous juste **laissé aller**?

Did it **remind** you where you were?  
Vous a-t-il **rappelé** où vous vous trouviez?
