Amendment 003 has been issued to answer bidders' questions.

Question 1:

Would you consider a purpose built, military only tactical parachute training facility with dedicated air space up to 25,000ft and out to 10NM and 18 drops zones over a civilian skydive school that only offers military support?

Answer 1:

All drop zones will be considered based on mandatory and rated criteria, however, military will not be preferred over civilian and vice versa.

Question 2:

Would you accept that while a brand new state of the art Vertical Wind Tunnel (VWT) is available, it is 2 hours from our facility. Transportation is supplied by us.

Answer 2:

Tight training timelines would not allow for this transit time.

Question 3:

Would your client consider a facility that would be dedicated to their use?

Answer 3:

All facilities are being considered.

Question 4:

In Annex A, "Statement of Work", section 4 "Safety";

There does not appear to be any Technical Requirements referencing the Aircraft Certificate of Airworthiness (C of A). Please confirm the aircraft must hold a valid C of A in accordance to the regulations of its country of registration?

Must the aircraft be maintained in accordance a "Manufactures Approved Maintenance Schedule"?

Answer 4:

The aircraft needs to be certified to perform flight/para operations and insured to this effect in the country in which it operates or will operate by the federal authority. Maintenance requirements will be determined by this authority.
