INVITATION TO TENDER NOTICE

Solicitation #: FP802-170264

Closing Date: Friday, December 1, 2017

Time for solicitation closure: 2:00 pm EST

This Invitation to Tender is for the department of Fisheries and Oceans Canada.

Title: Mactaquac pond recoating and construction

Work site location: French Village, New Brunswick

This Invitation to Tender Package includes the following:

1. Invitation to Tender Notice
2. Specifications (includes Drawings)
3. Construction Tender Form (**Mandatory - to be completed by Bidder**)

CLOSING LOCATION(S):

Location #1 – For electronic submissions **ONLY**

Please send your electronic proposal to: Julie.Michelle.Tremblay@dfo-mpo.gc.ca

The maximum size per email (including attachments) is limited to **10MB**. If the limit is exceeded, your email might not be received by DFO. It is suggested that you compress the email size or send multiple emails to ensure delivery. Bidders are responsible to send their proposal and to allow enough time for DFO to receive the proposal by the closing period indicated in the RFP.

For bids transmitted by email, DFO will not be responsible for any failure attributable to the transmission or receipt of the email bid. DFO will send a confirmation email to the Bidders when the submission is received.

Location #2 - For hard copy submissions **and bid bonds**

Fisheries and Oceans Canada,
Attention: Julie Michelle Tremblay
Ref : FP802-170264
Procurement Hub – Ottawa Office,
Station 9W088, 9th Floor,
200 Kent Street,
Ottawa, Ontario K1A 0E6
Telephone: (613) 998-1614

Please Note:

All bids bonds are to be submitted in hard copy by the bid closing date and time to the mailing address indicated above whether the bid submission is sent via Location #1 or Location #2.

DELIVERABLES / SCOPE OF WORK

Exterior concrete Fish Ponds at the Mactaquac Fish Hatchery require surface blasting, concrete patching, and extensive substrate preparation work for restoration and recoating application of a specialized resin based sealant coating. Pond sump drains require restoration which shall include replacement of stainless steel cross member supports during the preparation stage of each tank.

This project is an urgent requirement to refinish and recoat 6 existing 36 x 36 foot exterior concrete fish ponds at the Mactaquac Biodiversity Facility, in French Village New Brunswick. Six (6) large ponds will be refinished during the Fall of 2017 (November, December). Each existing pond will require surface preparation and will require blasting to remove all traces of non-bonded existing dilapidated former coating. Any leaks or concrete cracks in tanks will be repaired. Intermediate coats will then be applied over any bonded existing PPC coating to smooth out the concrete surfaces and fill any bug holes or voids. Two finish coats of PPC QC Resin will be applied in order to seal and waterproof each of the six tanks being restored. Pond sump drains are rusted and require all new stainless steel metal supports to reattach aluminum pond filter screens. Please refer to the combined design drawing and PPC coating manufacturers recoating specification included as a separate document provided by a consulting engineer.

- The contractor will demonstrate to the project engineer/project officer during the final inspection that the contract documents are followed.
- The contractor is to provide lump sum price to supply and install all labour, materials, permits, etc. for the whole project including hoarding and heating to protect from moisture.
- The contractor may be requested to provide an average unit price per tank.
- The contractor will include the information about the warranty (period and items to be covered) in written form which is required to be submitted in one-week following the substantial completion inspection.
- The contractor will provide the as-built drawings if requested, in one-week following the project substantial completion inspection.

Assumptions:

- Assume no modification, repair or other extra work required to other existing structures in order to complete this contract

FAMILIARIZATION WITH SITE

Before submitting a bid, bidders can visit the site and its surroundings to review and verify the form, nature and extent of the work, materials needed for the completion of the work, the means of access to the site, any accommodations they may require, and in general shall obtain all necessary information as to risks, contingencies and other circumstances which may influence or affect their bid or costs to do the work. No allowance shall be made subsequently in this connection on account of error or negligence to properly observe and determine the conditions that will apply. Contractors, bidders, or those they invite to site are to contact the Contracting officer.

EXPECTED START AND COMPLETION DATES

The services of the Contractor will be commencing upon contract award. The expected completion date of this project is **March 31, 2018**.

MANDATORY REQUIREMENTS:

- The minimum acceptable amount of Public Liability and Property Damage Insurance is **\$2,000,000.00** per occurrence. All tenders **must** be accompanied by confirmation from the tenderer's insurance company that the required insurance will be available upon contract award;
- The tenderer must provide tender security, at the tenderer's own cost, in accordance with the document entitled "Tender Security Requirements" as Bid Security is required for bids over \$100,000. Under these circumstances, the Tender and **original signed Bid Bond** must be delivered to the Closing Location prior to the closing date.

Note: All tender securities (Bid Bond) will be returned except that of the successful tenderer (Bidder), which will be retained until the successful tenderer (Contractor) has completed the said contract.

Question and Answer period: DFO will accept questions from Bidders **until Friday, November 24, 2017 at 5:00 pm EST**. These are to be sent **directly and only** to the contracting Officer listed below.

Enquiries regarding this Invitation to Tender are **ONLY** to be submitted in writing by emailing to the following:
