Amendment 003 is raised to answer a Bidder's question as follows:

Q1 Over the past 5 years we have completed the installation, removal, as well as the maintenance of 57 buoys in the St-Laurent Seaway for Defence Construction Canada, our question is whether or not our past projects with buoys can be considered to be the same as a past project with booms, considering that it is mandatory to have already install booms?

A1 No, past projects involving only buoys cannot be considered to be the same as a past project involving booms.

In accordance with the solicitation, Annex F, Mandatory Technical Criteria M1, the Bidder must provide two examples of projects which demonstrate that the bidder has experience in the design and installation of shore anchors for waterway barriers.

Furthermore, Canada would like to reference Criteria Mandatory Criteria M2, which states:

"The Bidder must provide at least one (1) written example where the proposed waterway barrier products in their Bid which are currently in use at a dam site located in Canada. The Bidder must provide the complete address location of the dam site, and a full description of the waterway barrier products (i.e. make / model / part #) in use which are the same products they are offering in their Bid."

In accordance with 4.2.1 Basis of Selection – Mandatory Technical Criteria states "A bid must comply with the requirement of the bid solicitation and meet all mandatory technical evaluation criteria to be declared responsive."

ALL OTHER TERMS AND CONDITIONS REMAIN UNCHANGED.
