Question 001

The factory indicated each of the 12 items will be packaged as a kit with one or two of each of the line items in a box. Will this packaging be acceptable to Department Of National Defence?

Answer 001

In reference to RFP para 6.14 SACC reference D6010C, specifically para 1b in the SACC clause "The Contractor must group items by stock number (on the same pallet) within consolidated shipments. Pallet loads composed of more than one stock number must be marked as *Mixed Items*."

The Department of National Defence requires that the items be delivered per individual Line Items, not as Kits. The planned distribution of the tactical voice bridge (TVB) is to select the Line Items required for each distribution. Each distribution may require a different bundle of Line Items. The TVB will deploy with only the required Radio Interface Leads, so as not to misplace or lose unused items. Deliveries packaged per Individual Line Items allows such selection, while deliveries packaged as Kits does not allow such selection.

Question 002

Will a faxed bid to bid receiving be acceptable?

Answer 002

Bids will not be accepted by fax.

All other terms and conditions of the solicitation remain the same.
