

CMHC RFP for Doccentre Services

Question #2

File #201703030

Questions #2

Would CMHC be open to extending the questions deadline by 2 weeks (to December 8<sup>th</sup>), or adding a follow-up questions deadline, in case proponents have any follow-up questions based on CMHC's responses to questions?

Answer #2

In order to allow Proponents time to finalize their proposals we want to ensure everyone has all answers to questions by December 1<sup>st</sup>, allowing three weeks to develop their response. As such, we are not able to extend the deadline for questions but will certainly respond to all questions as quickly as possible to ensure that clarifications can be made if necessary. If we receive a follow up question to an answer provided, we will consider, at that time, if it is appropriate to provide further information.
