This amendment is used to address solicitation W7702-186018/A as follows:

- Questions and Answers

Question #1: It appears you are focusing on a specific type of technology, the Non-Linear Junction Detector (NLJD), and are in need of engineering services to integrate this equipment (presumably internally developed?) onto an Unmanned Air System (UAS). Is that interpretation correct?

Answer #1: That interpretation is incorrect, the work would adapt proven hand-held NLJD technologies as payloads for UAS platforms by use of a UAS simulator apparatus. Direct integration of NLJD technology on a UAS is not covered in this Contract. Engineering support will be required to design, fabricate, modify and install mechanical and electrical devices and installation fixtures for mounting Counter Improvised Explosive Device (CIED) equipment on the UAS simulation apparatus, or for modifications to the UAS simulator apparatus (structural and control).

If your proposal has already been submitted, you may wish to revise it. Revisions to your proposal must be submitted in a sealed envelope with the contents clearly identified on the outside of the envelope. Any revisions to your proposal must be received by the Bid Receiving Unit on or before the time and date stated on page 1 of this document. Any revisions to your proposal received after the closing date and time will be considered late and will be returned unopened.

ALL OTHER TERMS AND CONDITIONS IN THE SOLICITATION REMAIN THE SAME AND ARE IN FULL EFFECT
