BIDDERS ARE TO SUBMIT BIDS TO:

Irena.Stevic@canada.ca

2.5 Electronic Submission of Bids

- (a) Suppliers must submit their bids either as PDF documents attached to their email or as documents that can be opened with the Microsoft Office Suite of applications.
- (b) Suppliers may submit their bid in multiple emails, but all emails must arrive before the solicitation closing date and time to be evaluated as part of the bid. The maximum email size that can be received by SSC is 10 MB. Suppliers should ensure that they submit their bid in multiple emails if their attachments will cause the email to exceed that size.
- (c) The time at which the bid is received by SSC will be determined by the "Sent Time" indicated in the email received by SSC.
- (d) During the two hours leading up to the closing date and time, an SSC representative will monitor the SSC Email Address indicated herein for RFQ Submission and will be available by telephone at **(613) 793-1826**. If the Supplier is experiencing difficulties transmitting the email, the Supplier should contact SSC immediately.

- (e) Canada will not be responsible for any technical problems experienced by the Supplier in submitting its bid, unless Canada's systems are responsible for a delay in delivering the email to the SSC Email Address indicated herein for RFQ Submission.
- (f) In the case of emergency, SSC has the discretion to accept a hand delivered (in person by a representative of the Supplier or by courier) of a hard copy submission that includes the entire bid. However, the hand delivered bid must be received by the closing date and time. As indicated above, an SSC representative will be available at the Contracting Authority's telephone number during the two hours before the solicitation closing date and time to receive bids submitted in this way. The only circumstances in which SSC will accept a delayed hand delivered bid is if the Supplier can show that the SSC representative was unavailable to receive the hand delivered bid, and attempts were made during the two hours before the solicitation closing date and time to make delivery.
 - (i) A bid delivered to the specified email identified above after the closing date and time but before the contract award date may be considered, provided the Supplier can prove the delay is due solely to a delay in delivery that can be attributed to:
 - 1) Canada's systems causing a delay in delivering the emailed submission to the SSC Email Address indicated herein for RFQ Submission; and
 - 2) The Supplier can show that attempts were made during the two hours before the solicitation closing date and time to hand deliver the submission, but the SSC representative was unavailable to receive the hand delivered submission.
 - (ii) Misrouting, traffic volume, weather disturbances, labour disputes or any other causes for the late delivery of arrangements are not acceptable reasons for the arrangement to be accepted by SSC."

2.6 Enquiries – Bid Solicitation

- a) All enquiries must be submitted electronically to the specified email identified as the "Contracting Authority" on page 1, no later than 24 hours before the bid closing date. Enquiries received after that time may not be answered.
- b) Bidders should reference as accurately as possible the numbered item of the bid solicitation to which the enquiry relates. Care should be taken by Bidders to explain each question in sufficient detail in order to enable Canada to provide an accurate answer. Technical enquiries that are of a proprietary nature must be clearly marked "proprietary" at each relevant item. Items identified as "proprietary" will be treated as such except where Canada determines that the enquiry is not of a proprietary nature. Canada may edit the question(s) or may request that the Bidder do so, so that the proprietary nature of the question(s) is eliminated, and the enquiry can be answered to all Bidders. Enquiries not submitted in a form that can be distributed to all Bidders may not be answered by Canada.
- c) All Bidders will be informed of the outcome of the RFQ.

2.7 Applicable Laws

- a) Any resulting contract must be interpreted and governed, and the relations between the parties determined, by the laws in force in Ontario.

If no change is made, it acknowledges that the applicable laws specified are acceptable to the Bidders.

The Bidder is requested to fill in the bid prices at Annex B.

- (c) **Blank Prices:** Bidders are requested to insert "\$0.00" for any item for which it does not intend to charge or for items that are already included in other prices set out in the tables. If the Bidder leaves any price blank, Canada will treat the price as "\$0.00" for evaluation purposes and may request that the Bidder confirm that the price is, in fact, \$0.00. No Bidder will be permitted to add or change a price as part of this confirmation. Any Bidder who does not confirm that the price for a blank item is \$0.00 will be declared non-responsive.

PART 4 EVALUATION PROCEDURES AND BASIS OF SELECTION

4.1 Evaluation of Financial Bid

The financial evaluation will be conducted by calculating the Total Bid Price using the Pricing Table in Annex "B" completed by the bidders. Calculations will be based on the sum of all total prices for the deliverables specified in Annex "B".

The price of the bid will be evaluated in Canadian dollars, Applicable Taxes excluded, DDP destination, Canadian customs duties and excise taxes included.

All prices indicated in the Annex B – Pricing Sheet, must include 12 months of warranty maintenance and support.

4.2 Basis of Selection

A bid must comply with all requirements of the bid solicitation to be declared responsive. The responsive bid with the lowest evaluated price will be recommended for award of a contract.

4.3 Sole Bid response - Price Support (SACC Clause: C0008T (2007-05-25))

In the event that the Bidder's bid is the sole bid received, the Bidder must provide, on Canada's request one or more of the following price support if applicable:

- i. a current published price list indicating the percentage discount available to Canada; or
- ii. copies of paid invoices for similar quality and quantity of the goods, services or both sold to other customers; or

PART 5 CERTIFICATIONS

Bidders must provide the required certifications and associated information to be awarded a contract.

The certifications provided by Bidders to Canada are subject to verification by Canada at all times. Unless specified otherwise, Canada will declare a bid non-responsive, or will declare a contractor in default if any certification made by the Bidder is found to be untrue whether made knowingly or unknowingly, during the bid evaluation period or during the contract period.

The Contracting Authority will have the right to ask for additional information to verify the Bidder's certifications. Failure to comply and to cooperate with any request or requirement imposed by the Contracting Authority will render the bid non-responsive or constitute a default under the Contract

The certifications and Additional information listed below should be submitted with the bid, but may be submitted afterwards. If any of these required certifications or additional Information is not completed and submitted as requested, the Contracting Authority will inform the Bidder of a time frame within which to provide the information. Failure to provide the certification or the additional information listed below within the time frame provided will render the bid non-responsive.

5.1 OEM Certification

Any Bidder that is not the Original Equipment Manufacturer (OEM) for every item of hardware proposed as part of its bid is required to submit the OEM's certification regarding the Bidder's authority to provide and maintain the OEM's hardware, which must be signed by the OEM (not the Bidder). No Contract will be awarded to a Bidder who is not the OEM of the hardware it proposes to supply to Canada, unless the OEM certification has been provided to Canada. Bidders are requested to use the OEM Certification Form included with the bid solicitation. Although all the contents of the OEM Certification Form are required, using the form itself to provide this information is not mandatory. For Bidders/OEMs who use an alternate form, it is in Canada's sole discretion to determine whether all the required information has been provided. Alterations to the statements in the form may result in the bid being declared non-responsive.

If the hardware proposed by the Bidder originates with multiple OEMs, a separate OEM certification is required from each OEM.

For the purposes of this bid solicitation, OEM means the manufacturer of the hardware, as evidenced by the name appearing on the hardware, on all accompanying documentation, on mandatory certification reports, and on any support software. "Hardware" is defined as the assembled end product being proposed.

Bidder must provide the required documentation in Form 1 – OEM Certification Form, as applicable, to be given further consideration in the procurement process.

5.2 Integrity Provisions – Required Documentation

Bidders who are incorporated, including those bidding as a joint venture, must provide a complete list of names of all individuals who are currently directors of the Bidder.

TACTICAL ASSET CONFIGURATION INFORMATION SYSTEM MOBILE COMPUTER (TACIS MC)

1 INTRODUCTION

1.1 Background

The Tactical Asset Configuration Information System (TACIS) was developed by the Department of National Defence (DND) to track the location and configuration of maintenance-significant DND assets (e.g., radios) within platforms (e.g., vehicles, shelters, maintenance shops, etc.) in which they may be installed. Each tracked asset is uniquely identified by a permanently affixed barcode label.

In order to support asset tracking using TACIS, there is a requirement for a rugged, handheld TACIS barcode label scanning/reading capability.

The purpose of this document is to identify the requirements for the new TACIS Mobile Computer (MC). It is intended to fully describe the functional requirements, as well as non-functional requirements, design constraints and other factors necessary to provide a complete and comprehensive description of the requirements for the TACIS MC.
