Description of the Requirement:

The Canadian Space Agency is examining potential contributions to future international space exploration missions. Among the areas under consideration are telecommunications technologies. Deep-space exploration poses a new set of challenges to traditional telecommunications technologies. The objective of this project is to analyze and assess the potential return on investment (ROI) of next generation telecommunications technologies (optical and radio frequency) for deep-space exploration, including commercial space and terrestrial applications.

Level of Security Requirement:

Company Minimum Security Level Required: DOS-Reliability

Resource Minimum Security Level Required: Protected B

Applicable Trade Agreements:

This procurement is subject to the Canadian Free Trade Agreement (CFTA).

Proposed period of contract:

The proposed period of contract shall be from the award date of the contract till June 22, 2017.

Estimated Level of Effort:

The total maximum funding available for the contract resulting from the bid solicitation is **\$88,000.00**, Goods and Services Tax or Harmonized Sales Tax extra, as appropriate. This disclosure does not commit Canada to pay the maximum funding available. Bids valued in excess of this amount will be considered non-responsive.
