This amendment 004 is being raised to address questions submitted by potential bidders;

1. Questions and Answers, All questions appear in their original format and language. The T.A's response appears in ***BOLD AND ITALIC***.

Q21) Could you please let us know if you want wire mesh decks on all levels or just on the tunnel bays? the rest is 2 safety clips bars per pallet ?

A21) We require the wire mesh deck on all levels including the tunnel. The wire mesh are not required for the ground/floor level.

Q22) I have to disagree with the Technical Authority on the request for all components to be blue, orange, or yellow. I am wondering why they think that bracings and columns are "high risk components" that must be of those colours in the first place. Bracings and columns are not "high risk components" and having them in one colour or another will not make a difference.

A22) Bracings and Columns can be provided in different colors. It is required that the beams and end frames only be of high visibility colors.

Q23) The solicitation asks for "rolled-in" step beams. Are box beams acceptable? If the capacities are met, whether a beam is of the "rolled-in" type or "box" type is not relevant, and rules out bidders without cause.

A23) We will accept rolled-in and box type beams

*******ALL REMAINING TERMS AND CONDITIONS ARE UNCHANGED*******
