This amendment is being raised to answer the following questions and make a change in solicitation 01580-180678/A:

The closing date of the solicitation has been amended from 2017-12-18 to 2017-12-20.

1. Questions and Answers:

Question 1

Regarding 1.3 - *Stepless adjustment of track width from a minimum of 4.0 feet to a maximum of 7.0 feet*

I would think they want the planter to be within legal transport width? The maximum track with legal transport width of 255 cm/8.5' would be 180 cm/6'. We could go to 7' but then the overall width would be 9.5'.

- a) What is the desired track width, it is adjustable but standard we set it at 62"/158 cm.
- b) Row spacing is not listed in the specification. Would they want 7.5" or something different?

Answer 1

- a) Yes, this is fine. If required to keep it legal to transport the tracking maxing out at 6' is fine.
- b) Row spacing should be adjustable.

Question 2

Regarding 1.10 - *1000 – 6 chamber magazines for bagging of seeds for single row seeding made of plastic*

Are they looking for 1 magazine holding 6 chambers or 1 magazine holding 12 chambers?

Answer 2

We require 6 chamber magazines, but as long as the 12 chambers operate with 6 rows they will be fine.

Question 3

Regarding 1.23c - *Automatic lap belt*

The safety belt is manually adjustable, not automatic. I assume that should be fine.

Answer 3

Yes, this is fine

Question 4

Regarding 1.25 - *Delivered to Melfort Research Farm field ready*

Is a training on site required? For better understanding and performance of the machine that would be suggested.

Answer 4

Yes, on- site training is fine.
