## AMENDMENT NO. 1

### HYDRAULIC PRESS, Garrison Petawawa

This amendment is raised to answer questions asked by potential bidders as follows:

**Question #1** - Specification: min. requirements.

Are they ok with Overall bending length –12'1"?- instead of 10'2"?

Are they ok with: distance between side housings -10'7" instead of 8'4"?

Answer #1 – Please change the specification as follows:

DELETE: Minimum Requirement: Overall Bend Length 10'2" 3100 mm

INSERT: Minimum/maximum Requirement: Overall Bend Length 10'2" 3100 mm

**Question #2** - I have a question regarding the following statement on page 12, Delivery / Installation: The vendor will deliver and oversee the installation of the new Hydraulic Press Brake by 4 CDSB Petawawa Engineers Services, in bldg H-112, # 227 Montgomery Road.

- 2.1 Please confirm who is responsible for the cost and arranging of freight to customer's door.
- 2.2 Who is responsible for the off-loading and placing the press brake in the final resting position (i.e., rigging)?
- 2.3 Who is responsible for hooking up the plant services directly to the press brake.
- 2.4 Who is responsible for providing the initial filling of hydraulic oil into the press brake (both oil and filling of tank) – typically this is customer responsibility.

Answer #2 -

- 2.1 The Contractor
- 2.2 The Department of National Defence
- 2.3 The Department of National Defence
- 2.4 The Department of National Defence

All other terms and conditions remain unchanged.
