This Solicitation Amendment No. One (1) is raised to include the following addendum no. 1.

The following addendum to the tender documents is effective immediately. This addendum shall form part of the contracts documents.

All other terms and conditions remain the same.

Addendum no. 1

QUESTIONS AND ANSWERS

Q1. What is the elevation at toe of slope and top elevation? (For purpose of knowing how much water to expect during high/low tides)

A1. We do not have any spot elevations for the working area however the contractor should not have any problems with ice or water levels under normal winter conditions. The tidal area in the work site is very shallow and almost completely cut off from Strait waters.

Q2. How do you install an effective silt curtain in winter months with large amounts of ice being present?

A2. After talking with our Environmental group they recommended installing the silt curtain as per usual and maintain it as long as possible (until the ice forms). If or once it is no longer possible to maintain it, they must document the reason(s).
