Amendment 001 has been raised to modify the Request for Standing Offer (RFSO) and publish all answers to questions received to-date.

A. QUESTIONS AND ANSWERS

Q1. [We] are planning on responding to solicitation E60PV-18SCAN/A. After a complete review with our internal contractual and technical team we have decided to request an extension to the current closing date of January 10, 2018. Please advise if the Crown will consider extending the closing date by two weeks to January 24, 2018.

A1. Canada is not in a position to grant this request.

B. MODIFICATION TO RFP

B1. At **PART 4 – EVALUATION PROCEDURES AND BASIS OF SELECTION**, delete section 4.2.4 in its entirety and replace with the following:

4.2.4 For each responsive offer, the technical merit score and the pricing score will be added to determine its combined rating.

Neither the responsive offer obtaining the highest technical score nor the one with the lowest TOP will necessarily be accepted. The responsive offer with the highest combined rating of technical merit and price for each instrument category will be recommended for award of a Standing Offer. Up to two NMSOs may result from this RFSO.

The table below illustrates an example where all three offers are responsive and the selection of the offeror is determined by a 70/30 ratio of technical merit and price, respectively. The total available points equals 30 and the lowest evaluated price is \$50,000 (50).

Basis of Selection - Highest Combined Rating Technical Merit (70%) and Price (30%)				
		Offeror 1	Offeror 2	Offeror 3
Overall Technical Score		27/30	25/30	22/30
Offer Evaluated Price		\$70,000.00	\$55,000.00	\$50,000.00
Calculations	Technical Merit Score	27/30 x 70 = 63.0	25/30 x 70 = 58.3	22/30 x 70 = 51.3
	Pricing Score	*50/70 x 30 = 21.4	*50/55 x 30 = 27.3	*50/50 x 30 = 30.0
Combined Rating		84.4	85.6	81.3
Overall Rating		2	1	3

B2. At **ANNEX A – STATEMENT OF WORK**, delete:

“Bench top narcotics and explosives instruments based on Ion Mobility Spectrometry (IMS), utilizing dual mode (simultaneous narcotics and explosives) analysis for a sample, including delivery, installation, training, one year Warranty including maintenance and support services, hard-sided transportation crate, consumable materials as described below, and the required manuals for the operation and maintenance of the IMS instrument (in either English, French or bilingual format). The offeror must also provide all necessary cables, power cords, accessories etc., required to to produce a fully functional instrument;”

and replace with the following:

“Bench top narcotics and explosives instruments with a radioactive ionization source based on Ion Mobility Spectrometry (IMS), utilizing dual mode (simultaneous narcotics and explosives) analysis for a sample, including
