This Addendum is raised to provide the following answers to questions provided by bidders.

Q1

The solicitation identifies 15 locations for maintenance and inspections of various sizes and complexity of rooms/buildings. The sample "Test and Inspection" report though requests items to be tested that would not be located in the identified locations. Are we to inspect the Central Control Station every time one of the areas are tested at these 15 locations? Generally speaking, where is the Central Control Station located?

Ex. Part 3. (Items Inspected and Tested)

3.1 Central Control Station

3.1.1 Central Control Station is installed within the protective area

3.1.2 All Peripherals are provided and according to approved equipment

3.1.3

A1

The Central Control Station is located at building H-17 (Military Police Head Office Building) here at 5CDSB Gagetown. The Contractor is not expected to inspect the Central Control Station each time the 15 locations are tested.

Q2

Section 00 21 13 item 1.09 discusses "Acceptability of Material". This section describes the use of acceptable material and what is to be done if material that is not standard is installed. Question; is the winning proponent expected to carry stock of intrusion alarm equipment solely to be used for this contract? If we are to carry stock, can we get a sample list of equipment expected to be carried:

Alarm panel: Model?

Door Contacts: Model?

Motion Detectors: Model?

Etc....

A2

The Contractor is not expected to carry stock but have materials readily available from a supplier.

Q3

5 CDSB Gagetown is identified in the tender as a Repair and install only portion of the contract. Can we get an idea of how many systems are at this location that would be requiring service?

A3

Approximately 100, but this only covers repairs/installations as and when requested by the Engineer.

Q4

For the Annual Maintenance for each location, can they be scheduled together where locations are close to each other or is each of the 15 locations serviced at different times?

A4

Yes, some areas could be scheduled together.

Q5

Does the hourly repair rate (Annex "B" item 16) also apply to travel time to the location?

A5

Travel time to and from the Contractors Base of Operation is to be included in the rates provided, Check (1.17 Basis of Payment line .2).

Q6

For tender submissions, can they be faxed or Emailed? Or hand delivered only?

A6

Tender submissions can be mailed, couriered, hand delivered or faxed to the Bid Receiving Unit by the date, time and place indicated on page 1 of the bid solicitation. The fax number can be found on page 1 of the bid solicitation as well.

Any tender submissions which are emailed WILL NOT be accepted.
