TECHNICAL SPECIFICATIONS

Revise: Section 01 11 00, Part 1, 1.5.2 to read:

Required stages:

.1 Establish temporary environmental and traffic/pedestrian protection. Silt curtains are not required for environmental protection.

.2 Complete dredging in areas shown on the Drawing. The procedure will involve breaking the ice cover, placing the broken ice blocks along the offshore part of the dredged area, excavating the riverbed to the target elevation and removing the excavated riverbed material off-site.

.3 Remove traffic/pedestrian protection, environmental protection and temporary pedestrian access.

Revise: Section 01 35 43, Part 1, 1.7.11 to read:

Waterways and ice blocks from dredging to be kept free of excavated fill, waste material and debris.

Remove: Section 01 35 43, Part 1, 1.7.15

BIDDER QUESTION AND PWGSC RESPONSE

1. Regarding Environmental Protection in this bid, is the intent for the Contractor to supply and install Sediment Fence and/or Coir or Fibre Rolls during Dredging? If so, can PWGSC identify areas that would require either of these erosion and sediment control measures?

PWGSC Response: Sediment Fences and Fibre Rolls are not required.
