SOLICITATION AMENDMENT N°. 006

This solicitation amendment is raised to :

1. Provide answers to questions #24 to #29 of solicitation amendment 005 and provide answers to Bidders questions in relation to this solicitation;
2. Amend the Request for Proposal (RFP) as detailed in Appendix A-5 below.

Question #24:

With respect to requirements MT1 and RT1 for streams one and two, we would like to clarify our understanding that the requirement for a "similar environment" project reference means that in order to meet this requirement, projects must primarily be based on infrastructure support services for Windows servers and desktops with centralized software distribution. Our understanding is that projects that primarily involve application development and management would not meet MT1 and RT1 requirements. Is that interpretation correct?

Answer #24:

Projects involved in application development and management would meet the criteria if the environment for the project being submitted meets the “similar environment” as well as the various criteria for MT1 and RT1. Please refer to the top paragraph on Forms 2 and 3 for a description of a “similar environment”.

Question #25:

Referring to Corporate Mandatory Criteria MT1 (b): It is common for vendors to have contracts in place with significant values whereby little to no utilization has occurred. We understand DND is looking for a vendor to provide specialized and crucial expertise and is looking for vendors to demonstrate they have provided these types of services in the past. Contract values are not the most effective way to evaluate a company's experience in delivering resources to the degree that the DND requires. It would be beneficial to DND to ask vendors to demonstrate experience on contracts where they have actually delivered the services by asking for amount invoiced on the contract. Therefore, we would ask that the Crown consider changing MT1 part b to the following:

“Have a minimum invoiced value of \$5,000,000 or more (excluding applicable taxes).

Answer #25:

No changes to MT1 b will be considered at this time. Canada has determined that evaluation criteria will remain the same.

Question #26:

MT3 is asking bidders to demonstrate their ability to provide resources in the core categories as indicated in the Statement of Work using a maximum of five (5) contracts.

Would the Crown amend the criteria to read as follows:

Bidders must demonstrate their ability to provide resources in the core categories or similar resource categories as indicated in the Statement of Work using a maximum of five (5) contracts. Similar is defined as meeting 50% of the Statement of Work identified in Section 3.1 or Section 3.2

Answer #26:

Canada does not accept this recommendation, however Canada has amended the wording in MT3 to further clarify its meaning. Please see Form 2 in Appendix A-5 below.

Question #27:

For MT3: Please confirm that the 5 contracts used to demonstrate experience in providing resources in the core categories must be primarily based on infrastructure support services for infrastructure support contracts. Our understanding is that contracts that primarily involve application development and management would not meet MT3 requirements. Is that interpretation correct?

Please confirm that the 6+ contracts in RT2 must be primarily based on infrastructure support services for infrastructure support contracts. Our understanding is that contracts that primarily involve application development and management would not meet RT2 requirements. Is that interpretation correct?

Answer #27:

No, any informatics Project will be accepted as long as they meet the various criteria as set out in MT3 and RT2.

Question #28:

Please refer to Amendment #2, QA #5 which requested that " the Crown separate mandatory criteria M1 into two separate criteria to allow Bidders that have supported comparable technical environments and that have demonstrated a capacity to meet the varying resource requirements, submit a response to this RFP."

Additionally, please refer to Amendment #2, Form 2, Substantiation of Technical Compliance (Revised December 21st, 2017), Corporate Mandatory Criteria for Streams 1 and 2, which removed MT1 item e. " Have provided the resources in the Core Categories as indicated in the Statement of Work...", and added MT3 "The Bidder must demonstrate their ability to provide resources in the core categories as indicated in the Statement of Work...".

Further, please refer to Amendment #2, Form 2, Substantiation of Technical Compliance (Revised December 21st, 2017), Corporate Mandatory Criteria for Streams 1 and 2, MT1, page 2-3 of 5, which states " To demonstrate this experience the Bidder must submit one (1) customer reference Contract managed within the last eight (8) years. The reference must include: ... Provide core categories as stated in the Statement of Work".

We respectfully request that the bullet "Provide core categories as stated in the Statement of Work" be removed from MT1 and "Core categories provided" be removed from Form 6 as bidders are demonstrating their ability to provide resources in the core categories through MT3.

Answer #28:

Please refer to answer #18. Canada has amended Form 6 for Streams 1 and 2 as detailed in Appendix A-5 below.

Question #29:

Please refer to Amendment #2, Form 2, Substantiation of Technical Compliance (Revised December 21st, 2017), Corporate Mandatory Criteria for Streams 1 and 2, MT1 b, which states that the contract must "have a minimum contract value of \$5,000,000 or more not including amendments". We understand that amendments that have not been exercised to date cannot be included in the contract value. However, when amendments are issued and executed they are considered part of the contract. Therefore, please confirm that amendments that have been issued, executed and billed can be counted towards the minimum contract value in support of this requirement.

Answer #29:

No changes to MT1 b will be considered at this time. Canada has determined that evaluation criteria will remain the same.

Question #31:

The Crown has provided an estimated number of days as well as an estimated number of resources required per category for each stream as part of the calculated Total Cost. The estimated number of days is consistently the same with each category but the estimated number of resources varies. For example: In Stream 1, all categories require estimated 1-4 resources

Solicitation No. – N° de l'invitation W6369-16P5KK/A	Amd. No – N° de la modif. 006	Buyer ID – Id de l'acheteur 005IPS
Client Ref. No. – N° de réf. De client W6369-16P5KK	File No. – N° du dossier 005IPS. W6369-16P5KK	CCC No./ N° CCC – FMS No/ N° VME

except for the System Analyst, which jumps to 6-12 resources. By including such a large difference in the estimated number of resources between each category, it encourages vendors to propose or “tank” rates for the category(ies) with the higher number of resources as vendors will do this to keep their Total Cost down for financial evaluation. Would the Crown please consider eliminating the Estimated Number of Resources column for calculating Total Cost to ensure they receive competitive market rates for which vendors can provide quality resources and eliminate vendors proposing extremely low rates and thus not being able to supply the qualified resources?

Answer #31

This information is required in the RFP in order to provide Bidders with the breadth of the requirement. No changes will be considered at this time.

Question #32:

The Crown has selected a median evaluation methodology with a -20% limitation to vendors for substantiation requests. In our experience, this incentivizes bidders to price as closely as possible to the -20% range of pricing. For an RFP this size, it is highly likely that DND will receive more than 5 responses per stream, which means that the median -20% will result in professional services rates that are very low.

This problem is compounded by the evaluation methodology which designates 40% of the evaluation to price, which further incentivizes the submission of low rates as bidders price conservatively to avoid loss of scoring on the 40% portion. To avoid the outcome of unreasonably low rates, will the Crown consider amending the median band to -10% substantiation range.

Answer #32

Canada will not amend the median band.

Question #33:

Please refer to page 18 of the RFP, Part 4.3.b.ii. which outlines that should Canada request pricing support from bidders, bidders can support their rates by providing a copy of the contract that demonstrates "at least 50% of the tasks to be performed are the same as those performed under the Statement of Work in this bid solicitation...".

Solicitation No. – N° de l'invitation W6369-16P5KK/A	Amd. No – N° de la modif. 006	Buyer ID – Id de l'acheteur 005IPS

Additionally, please refer to Amendment #5, QA20 and QA21, which states that Canada has declined to allow bidders to demonstrate their ability to provide resource in core categories by referencing contracts for similar categories and mapping at least 50% of tasks to the SOW.

Would Canada please confirm that in order to maintain consistency, bidders can substantiate both their rates and their responses to MT3 by demonstrating that at least 50% of the tasks performed are the same as the tasks listed in the SOW.

Answer #33

Please refer to answer #26.

Question #34:

Please refer to Amendment #5, Form 2 (revised January 5th), 1.0 Evaluation Criteria, Similar Environment that states "actual numbers must be provided with the bid."

- a. Considering this contract is for the Department of National Defence, if bidders are using a DND contract to substantiate requirements, will they have to provide actual numbers?
- b. If the above is yes, would the Crown please provide the actual numbers for the current contract.

Answer #34

- a. No, if using a DND contract to substantiate requirements the Bidder does not have to submit the actual numbers.

Question #35:

Please refer to Form 6, Customer Reference From, Contract Information, that states "the Bidder must provide with this Form a copy of the reference contract." Would a copy of the contract cover page be accepted?

Answer #35

Bidders must provide a copy of the entire contract.

Question #36

In the last amendment # 005, where the crown extended the closing date to January 26th , which makes the last day for questioning tomorrow Jan 16, and given that there is still outstanding questions which have not been answered, would the crown extended the date to submit questions to January 19th?

Answer #36

Canada has amended the Enquiries – Bid Solicitation date as detailed in Appendix A-5 below.

If the Bidder chooses to submit its bid in hard copies, Canada requests that the Bidder submits its bid in separately bound sections as follows:

Section I: Technical Bid (_____ hard copies) (if applicable, add "and _____ soft copies on _____", and specify the medium such as CD, DVD or USB key)
