Organization Name: Natural Resources Canada (NRCan)
Solicitation Date: January 19, 2018
Solicitation Revised Date:
Closing Date: February 2, 2018
Anticipated Start Date: As soon as evaluations completed
Estimated Delivery Date: December 31, 2020

Requirement Details:

Solicitation Method: Competitive. This requirement is open only to those Supply Arrangement Holders that qualified under TBIPS Tier 1 for Services in the Ontario for the following:

Category(ies):

- P.8 Project Leader – Level 3 - 1 resource
- A.15 Web Graphic Designer – Level 2 - Estimated 2 resources
- A.16 Web Multi-media Content Consultant - Estimated 2 resources

Bidders must submit a bid for all resource categories.

Description of Work:

The objective of the contract is to oversee the delivery of a series of web-based products, where assessment information is presented in a scientifically-accurate, interactive, searchable and engaging manner. The resulting products will be made broadly available and will provide Canadians with an accessible, highly credible and useful source of information, which will inform decision-making on adaptation, improve understanding of the issue and enhance awareness of climate change impacts and adaptation.

The bidder must propose the following resources: One (1) Project Leader, Two (2) Web Graphics Designers /two (2) Multi-Media Content Designers. Each resource must include a detailed CV that demonstrates how the resource meets the applicable resource category requirements

The bidder must provide **2 or more examples** of past work that demonstrate experience in developing text-heavy, content-managed sites and delivering web-based components for science-based initiatives. The proposed resources are not required to be related to these examples.

The **Project Leader** must have a degree in physical or social science and experience in science communications. Proof of education must be provided.

The **Web Graphics Designers /Multi-Media Content Designers** developers must have a minimum of 5 years' experience producing interactive designs for science-based, multi-media sites.
