Question and Answer #5
M5000-184289/A
Fitness Equipment

Q1. On the soft training tools, item 1., plyo boxes, the sets must include the 6-24". I am looking for clarity as the 6/12/18" plyo boxes would provide those increments, as they stack on top of one another to achieve those heights (i.e.. 18+6= 24"). Or are you looking for a 6/12/18/24" set so you have a box for each increment?

A1. Yes boxes that stack on top of each other to achieve desired heights will suffice.

Q2. Would a 3 sided plyo box of 20-24-30 padded with high density foam also suffice?

A2. The three sided box of 20-24-30 is not desired as we need some smaller heights included.

Q3. With the minimum mandatory specifications as they are written, there are a number of items which have only a single option, competition is not at all possible. Combine that with the fact that ALL ITEMS are combined within one single purchasing table and these same items (Precor and Jacob's Ladder) are only able to be supplied by a single authorized Alberta vendor.

Should the "minimum range 13 degrees" for the Elliptical (item 2) be removed (all other specifications are valid) and the Jacob's Ladder (Item 5) removed entirely (it is a sole source item in itself), this entire solicitation would be able to receive competitive bids from multiple vendors.

A3. Amendments to following items:

Item 1- Treadmill- 5 year warranty on motors

Item 2- Elliptical- incline ramp will be viewed as optional on evaluation of specs
