This solicitation amendment is hereby issued to address a question posed by a supplier and address a revision to the Statement of Work.

No.	Question	Answer
1	<p>In the Supporting Technical Document 'All Sea Enterprises Underwater Service Report 2015.pdf' it refers to the use of a 20-ton crane being used to raise and lower divers. This size crane is more than enough to safely do the work right beside the barge. However, in the Annex A, Requirement, document it states a requirement for a crane capable of lifting 6000lbs at 100 foot 'reach'. Am I correct to assume that reach is referring to radius? If so, a larger than 20 ton crane is required.</p> <p>Please advise if a crane capable of reaching 100 foot radius is what is required, or if a 20-ton crane would be acceptable.</p>	<p>The contractor must provide a 30-tonne crane or equivalent, suitable for lowering a diver in a certified man basket to the ocean floor, from off the side of the barge. The requirement that the crane be capable of lifting 6000 lbs at a 100-ft radius was included in error.</p> <p>The statement of work has been updated to correct this requirement.</p>

Under:

ANNEX A - STATEMENT OF WORK

Remove: `**F1766-170013 - Annex A - Statement of Work**.pdf`

Insert: `**F1766-170013 - Annex A - Statement of Work – Revision 001**.pdf`

All other terms and conditions of the Solicitation remain the same.
