## AMENDMENT 001

The purpose of this amendment is to publish questions and answers regarding this request.

The purpose of this amendment is also to include an intellectual property clause.

### A) Questions and Answers

**Q1:** A wet scrubber is required downstream of the cyclone for capture of fine particulates prior to emitting the exhaust gasses to atmosphere. However, the wet scrubber is not included in the Mandatory Technical Criteria section of your RFP. Please verify with Agriculture & Agri-Food if this unit should be included as part of the base scope.

**A1** It must be included as part of the requirement.

**Q2** Mandatory Criteria 3.9.2 states that the unit must be compatible with a Rotary Atomizer, a Dual-Fluid Atomizer and a Pressure Nozzle Atomizer. We can design the system for compatibility with all three atomizers but only supply the components required for Rotary Atomization at this time. Mandatory Criteria 3.10 provides specs for a Rotary Atomizer. However, there are no specs for a Dual-Fluid or Pressure Nozzle Atomizer.

**A2** The system must be compatible with these three atomization modes (see 3.9.2) and the system must include the rotary atomizer (see 3.10).

### B) Intellectual property clause

At page 9 of 21,

INSERT ENTIRELY

#### 6.3.3 Contractor to own IP: No Explicit License Rights for Canada

Without affecting any existing intellectual property rights or relating to information or data supplied by Canada for purposes of the Contract, copyright in anything conceived, developed, or produced as part of the Work under the Contract will belong to the Contractor.

***All other terms and conditions remain unchanged.***
