**Solicitation amendment 002 is raised to revise clause 2010A – Sub Article 2010A 09 (2014-09-25) Warranty, change Delivery date and extend Closing date of RFP.**

At Article **6.3.1 General Conditions** - 2010A (2016-04-04), General Conditions - Goods (Medium Complexity - Sub-Article **2010A 09** (2014-09-25) Warranty

**Delete:**

Sub-Clause SACC Manual **2010A 09** (2016-09-15) Warranty

1. Despite inspection and acceptance of the Work by or on behalf of Canada and without restricting any provisions of the Contract or any condition, warranty or provision imposed by law, the Contractor, if requested by Canada to do so, must replace, repair or correct, at its own option and expense any work that becomes defective or fails to conform to the requirements of the Contract, where applicable. The warranty period will be 12 months after delivery and acceptance of the Work and will remain in effect thereafter, from the date at which each Strut becomes operational. The operational date is anticipated to commence within eight (8) months of the date of delivery, or the length of the Contractor's or manufacturer's standard warranty period, whichever is longer. The warranty applies to any part of the Work replaced, repaired or corrected pursuant to subsection 1, for the greater of the warranty period remaining, including the extension.

2. Canada must pay the transportation cost associated with returning the Work or any part of the Work to the Contractor's plant for replacement, repair or making good, and the Contractor must pay the transportation cost associated with forwarding the replacement or returning the Work or part of the Work when rectified to the delivery point specified in the Contract or to another location as directed by Canada. If, in the opinion of Canada, it is not expedient to remove the Work from its location, the Contractor must carry out any necessary repair or making good of the Work at that location and will be reimbursed its reasonable travel and living expenses.

3. The warranty period is automatically extended by the duration of any period or periods where the Work is unavailable for use or cannot be used because of a defect or non-conformance during the original warranty period.
