**This amendment is used to address solicitation W168A-17KM23/A as follows:**

**1) Revise Solicitation Close Date**

REVISED CLOSING DATE OF:

02:00 PM MST on 2018-02-13

**2) Questions and Answers**

Question #1: A full dump box 12-14 yards would weigh 36,000 to 42,000 lbs so the framework must be capable of this weight? The lifting lugs on the sander will definitely NOT support this weight, only empty. What is the total weight of a full dump box or sander box?

Response #1: The framework must be capable of supporting one (1) empty 12-14 cubic yard dump box OR sander box.

**3) At ANNEX "A", REQUIREMENT**

DELETE: in its entirety

INSERT: ANNEX "A", REQUIREMENT (REVISED 2018-02-02), attached

---

If your proposal has already been submitted, you may wish to revise it. Revisions to your proposal must be submitted in a sealed envelope with the contents clearly identified on the outside of the envelope. Any revisions to your proposal must be received by the Bid Receiving Unit on or before the time and date stated on page 1 of this document. Any revisions to your proposal received after the closing date and time will be considered late and will be returned unopened.

**ALL OTHER TERMS AND CONDITIONS REMAIN THE SAME AND ARE IN FULL EFFECT**

**ANNEX "A"**

**REQUIREMENT**

(REVISED 2018-02-02)

**1. BACKGROUND**

Currently 3rd Canadian Division Support Group Detachment Wainwright (3 CDSG Det Wainwright) Denwood Alberta Special Purpose Vehicle (SPV) does not have any support frames to hold dump boxes or sanding boxes for their sanding units. Dump boxes and sanding boxes are being removed using an overhead crane and are being rested onto the ground. This is creating corrosion on the boxes and sander units are getting damaged because the spinner on the bottom is coming in contact with the ground.

Truck dump box storage frames will allow for the ability to remove dump boxes and sander boxes quickly and easily, reducing the down time of the vehicle between seasons. Once the winter months are complete the sander units must be transformed into dump trucks in order to be ready for road maintenance.

**2. REQUIREMENT**

3rd Canadian Division Support Group Detachment Wainwright (3 CDSG Det Wainwright) Denwood, Alberta has a requirement for three (3) Truck Dump Box Storage Frames. This requirement must include construction, supply, delivery, and offloading of the Truck Dump Storage Box Frames. Upon delivery of the Truck Dump Box Storage Frames the contractor must remove of all packing material provided.

The requirement is in support of the Special Purpose Vehicle (SPV) section to be able to support 3 CDSG Det Wainwright sanding trucks to hold sander boxes and dump boxes, as needed, in the truck bed of 3 CDSG Det Wainwright's sanding trucks. The first frame would be used to hold one (1) empty dump box and would be stored in an outdoor compound or inside a building. The second frame would hold one (1) sander box and would be stored in an outdoor compound or inside of a building. The third frame would be mounted in 3 CDSG Det Wainwright sanding truck(s) and would be used as an open space during the changeover of units. This is important because without this open frame unit the units would have to be placed onto the ground and risk damage and would severely hamper the efficiency of removing and installing the units. As these storage frames are expected to be in use year-round they must have the capability to withstand the following weather conditions: temperatures between -50°C and +40°C, hail, rain, sleet, and snow.

**3. DEPARTMENT OF NATIONAL DEFENCE (DND) – VEHICLES**

<b>ITEM</b>	<b>MAKE/MODEL</b>	<b>YEAR</b>	<b>ESTIMATED WEIGHT (EMPTY DUMP BOX)</b>	<b>DUMP BOX SIZE</b>	<b>GVWR</b>
<b>1</b>	Western Star Dump Truck	2010	5,000 LBS	12.0 Cubic Yards	20,900 KGS
<b>2</b>	Sterling with a Munroe Sander Unit	2005	5,850 LBS	12.7 Cubic Yards	29,937 KGS

Images for each vehicle are included in Appendix I to Annex "A".

#### 4. DELIVERY DATE

All Goods must be delivered on or before 2018-03-31

PLEASE INDICATE:

(TO BE COMPLETED BY BIDDER)

Meet Delivery Requirement

*OR*

Unable to Meet Delivery Requirement

#### 5. MINIMUM MANDATORY PERFORMANCE SPECIFICATIONS

COMPLIANCE MATRIX – MINIMUM MANDATORY PERFORMANCE SPECIFICATIONS

A complete list of the minimum mandatory performance specifications are detailed below in the "Compliance Matrix". Bidders are to clearly demonstrate compliance with each mandatory specification.

1. Bidders **must** show compliance by addressing each performance specification in the Compliance Matrix, whether the product offered "meets" or "does not meet".
2. It is requested that supporting technical documentation, including but not limited to, specification sheets, technical brochures, photographs or illustrations be provided with the bid at solicitation close and be cross-referenced on the Compliance Matrix for each performance specification to outline where in the supporting technical documentation it demonstrates compliance. It is the Bidders responsibility to ensure that the submitted supporting technical documentation provides detail to prove that the proposed product(s) meet the requirements of the Performance Specification. If published supporting technical document is not available, the Bidder should prepare a written narrative complete with a detailed explanation of how its bid demonstrates technical compliance.
3. If the supporting documentation referenced above has not been provided at bid closing, the Contracting Authority will notify the Bidder that they must provide supporting documentation within two (2) business days following notification. Failure to comply with the request of the Contracting Authority within that time period, will deem the bid non-responsive and the bid will be given no further consideration.
4. Bidders must address any concerns with the performance specifications in written detail to the Contracting Authority before bid closing as outlined in the solicitation document.
5. Failure to meet each performance specification will result in the bid being deemed non-responsive, and be given no further consideration.

**COMPLIANCE MATRIX – MINIMUM MANDATORY PERFORMANCE SPECIFICATIONS**

ITEM #	PERFORMANCE SPECIFICATION	STATUS (M) Mandatory	PERFORMANCE SPECIFICATION MET? Indicate either "YES" or "NO"	PERFORMANCE SPECIFICATION OFFERED Bidder <u>should</u> indicate how they meet the performance specification by recording this information in this column	CROSS REFERENCE In this column, Bidders <u>should</u> cross-reference where this performance specification is indicated in their supporting documents.
1	Dimensions for each frame must be 13 feet height wise, 10 feet – 10 inches width wise, 11 feet – 8 inches length wise  [13' H x 10' 10" W x 11' 8" L]	M			
2	Each frame must be constructed of material strong enough to support one (1) empty 12-14 cubic yard dump box OR sander box	M			
3	Each frame must allow for one (1) empty 12-14 cubic yard dump box OR sander box to be moved between frames with the use of chains and an overhead crane.	M
