QUESTION 3

The proposal indicates that NRCan jointly with CSC and their agent Stantec has already set up a course which meets exactly the requirements. Will the contents of that be available for usage or do we have to communicate with this group to negotiate an agreement?

ANSWER 3

Whether or not the contents are available for your usage, AAFC cannot speak on the part of other organizations or companies. You may enter into communication with any company that you wish in order to establish an agreement.

QUESTION 4

Do you have the contact information of a person in that company with whom we could communicate to begin the discussions with them?

ANSWER 4

We cannot give out this information.

QUESTION 5

As we understand it, the contents must be housed on an organization's LMS. Then, AAFC would be ready to pay annual registration fees for 750 employee participants? The course could therefore be housed in a LMS of a university?

ANSWER 5

Yes, the course could be housed in the LMS of a university provided that all the requirements of Appendix D are met.
