Enquiries - Bid Solicitation - Clause # 2.3

To ensure consistency and quality of information provided to bidders, significant enquiries received and the replies to such enquiries will be provided simultaneously to bidders to which the bid solicitation has been sent, without revealing the sources of the enquiries.

Here are other questions which we have received until now:

Question 5: Is the control computer supplied by the government?

Answer 5: See sections A.8 and A.9 of Annex A to see which pieces of equipment will be supplied by the government. The contractor will do the software development on his own computers and will deliver the control software with an installer (see section A.3, deliverable #2 in the table). The control computer for the imaging spectrometer is a Hewlett Packard Zbook laptop running Windows 7, or similar. The Government already owns the control computer; the contractor does not have to supply one.

Question 6: Is the recording medium located in the DAQ system or on the control computer?

Answer 6: In the control computer; please refer to characteristic #8 in section B.1.1 of Annex B.

Question 7: What IEEE-1588 version (PTPv1 or PTPv2)?

Answer 7: It is PTPv2 IEEE1588-2008.

All other terms and conditions of the solicitation remain the same.
