SOLICITATION AMENDMENT No. 006

The following question and answer are address to the specifications for clarification purposes only.

Question 1:

I have a concern that in the ATCO proposal it states that ATCO assumes they will perform their work in the winter months, this may present a problem if we have to maintain lighting until they commission the new street lighting. Is street lighting to be provided until the new streetlight system is commissioned?

RESPONSE:

Temporary replacement roadway lighting is not required to be provided during construction. Temporary lighting is required to adequately illuminate the kiosks only in the event of electricity disruption during construction, this will be consider incidental to the work. The kiosks must remain illuminated for safety visibility reasons throughout construction. Refer to section 01 14 00 Work Restrictions. Also note, ATCO's proposal was developed early in the design phase, their schedule outlined for the proposed work may be outdated. They have been kept in communication throughout this process. It will be up to the general contractor to establish the applicable schedule with ATCO.

All other terms and conditions of the Invitation to Tender remain unchanged.
