Amendment 06

This amendment is being raised to answer a question and make changes to the tender package.

A) QUESTION AND ANSWER

Q1 As a company with over 12 years' experience in the hazardous materials consulting industry and over 20 years personally I find that limiting the quality control specialist to only a registered hygienist misses out on those of us who are very qualified to perform this task.

Is it possible for the client/ owner to accept a highly qualified firm who has registered professional biologist on staff as well? As I mentioned we have no registered hygienists on staff however I am a professional biologist with over 20 years of industry related experience.

A1 We have relaxed the mandatory requirement. The Abatement Quality Control Contractor must be a registered professional who meets the aforementioned minimum experience criteria

B) TENDER REVISIONS

In: APPENDIX 2 – QUALIFICATION FORM

Section: 4

DELETE: Paragraph 2

REPLACE WITH:

The Abatement Quality Control Contractor must be a registered industrial hygienist, or a registered professional who meets the minimum experience criteria.

All other terms and conditions remain unchanged.
