

Innovative Solutions Canada Program

**Challenge EN578-170003/02: 3D Printing and Additive Manufacturing: Metal Powder Bed Density Test
Equipment**

Amendment 001

This amendment is raised to answer bidder questions.

Question #1:

We are interested in submitting a proposal for this challenge. Can you please clarify if the closing date is March 20, 2018 or August 31, 2018?

Response #1

This Challenge currently closes March 20, 2018. Bidders should monitor the Challenge Notice on Buy and Sell for any potential amendments.

The Call for Proposals (CFP) document will remain open until August 31, 2018 2:00pm EDT. Each individual challenge subject to this CFP will have its own closing date and time indicated on the Buy and Sell page for the specific challenge.
