Amendment 01

This amendment is being raised to distribute question and answers.

A) QUESTIONS AND ANSWERS

Q1 Is it expected that there will be many trees affected and needing special treatment within the scope of this construction?

A1 Most construction is away from any mature trees. However there are some that could be affected. In these cases coordinate with the Departmental Representative. See section 01 35 43 Item 1.8.2

Q2 Is contaminated soil a large concern?

A2 It's unlikely that any will be found. There is one area near the South End of the parking lot (drawing C2) in which contaminated soil was at one point a concern. Monitoring wells have been installed, but have not returned any positive results. The wells are scheduled to be removed in fall of 2018.

Q3 Will a laydown area for supplies/equipment be provided.

A3 Yes, a portion of the Main Parking lot will be available.

Q4 Are there any Parks Canada standards for managing water (from dewatering operations)?

A4 No. The contractor should prepare a site specific plan that deals with the potential for any suspended solids within the discharged water.

All other terms and conditions remain unchanged.
