QUESTIONS & ANSWERS

Q1 : We ask for consideration for an alternative package for the hardware specified for this project. The current products listed in Section 08170 list only products manufactured by Allegion (Ives/Schlage/LCN/Glynn Johnson) preventing competitive price competition from another hardware manufacturer.

We request alternate listing for the following:

2.2.1.3	Butt hinges	Specified	Ives	5BB1	Requested	Stanley	FBB191
2.2.2.7	Locks and latches	Specified	Schlage	ND Series	Requested	Best	9K Series
2.2.2.7	Locks and latches	Specified	Schlage	L Series	Requested	Best	45H Series
2.2.4.3	Door closers	Specified	LCN	1450	Requested	Stanley	D-3550
2.2.4.3	Door closers	Specified	LCN	4050	Requested	Stanley	D-4550
2.2.4.5	O/H Stops	Specified	GJ	900	Requested	ABH	9000
2.2.6.3	Auxiliary locks	Specified	Schlage	B660	Requested	Best	8T3 Series

All functions and finishes are matching of those listed in the project specification. Our warranty meets or exceeds requirements of the specification. See attached data sheets for confirmation.

Please note that BEST Keying and locks are widely used within Parks Canada in Atlantic Canada. The normal expectation would be for no-sub for Best locks for this owner.

We can provide all products in our request to our distribution partners within two to three weeks.

We have several dealers in the New Brunswick market that are hoping to provide a competitive bid package using our brands.

A1. Material substitutions will be considered after contract award.

Q2. We are writing to request approval under specification section 07 42 00 Composite Metal Panels. Part 2 Products 2.1 Manufacturers .1 acceptable manufacturers: *kindly add* .5 Larson by Alucoil North America as an approved supplier. Data pages and general info.

A2. Material substitutions will be considered after contract award.

Q3. Please accept my request for equivalence, the section I am referring to is 09 21 16, Gypsum Board Assemblies. The gypsum board manufacturer I am seeking approval for is Cabot Gypsum, manufactured in Point Tupper, NS.

Subsection 2.2.1 lists CGC, CertainTeed, GP and National Gypsum as the manufacturers of the standard gypsum board, Cabot X Light Core Gypsum would perform as well as the listed products.

Subsection 2.2.2 lists the same companies as above for the approved product manufacturers; Cabot Gypsum's Protec M+M performs the same as the approved products.

A3. Material substitutions will be considered after contract award.

Q4. Ultimate Windows are suppliers of Marvin brand aluminum clad and fiberglass windows and entrance systems in New Brunswick.

We would like to be considered as an approved alternate product for this upcoming project whereas we have supplied our Marvin products previously in many such applications.

Once approved we would also like to have the required window schedule for this project whereas I did not see it throughout the various tender documents.

A4. Material substitutions will be considered after contract award.

Q5. In tender submission you are requesting almost 15 cost breakdowns off individual units. At tender closing this impossible to do. all subs always submit their prices about 1/2 hr before tender is closing(especially plumbing,elect,ventilation); then we, as a g.c. have to add everything together. this is impossible. If this stays as is we won't bid. I would recommend that this information could be given as soon as tender is awarded. hopefully next couple of days.

A5. Please complete bid sheet as tendered.

Q6. Currently, **079200 – JOINT SEALANTS; 2.3.6.2.5** calls for SIKAFLEX 1A and we would like to request that our **POURTHANE NS** be forwarded for alternate approval. Please see attached to assist and if possible, let me know what is decided as well as if anything further needs to be addressed.

- 6 Type S-6: One-component polyurethane sealant; non-sag, for general constructions.
- .1 To ASTM C920: type S; grade NS; class 25; use NT, M, A, O.
 - .2 Acceptable materials:
 - .1 Polyurethane Sealant 540, 3M Company
 - .2 Dymonic or Dymonic FC, Tremco Inc
 - .3 Multiflex, Chemtron.
 - .4 Sonolastic NP 1, BASF Sonneborn.
 - .5 Sikaflex 1a, Sika.
 - .6 DynaTrol I-XL, Pecora.

A6. Material substitutions will be considered after contract award.

Q7. Please accept my request for equivalence, I have attached pertinent information for your review.
