Amendment 002 has been raised to respond to Questions received during the solicitation period.

Questions:

Q8. We have reviewed the Q and A about LED illuminator spec compliance, as in the attachment: Do you require a classification of "Exempt" under this revised standard (i.e.: 'Group 1', 'Group 2' or 'Group 3')?"

"Q4. Item 6.5 requires the LED illuminators to meet Laser Eye-safe Class 60825-1, which is prudent. However, our understanding is the scope of application in IEC 60825-1 would be only applied to LASER products after September 2010, and LED lighting products are no longer covered by the latest version of IEC / EN 60825-1, but rather need to be assessed in accordance with IEC / EN 62471. We would request that RCMP revise this item to comply with the current IEC/EN 62471 standard."

"A4. Item 6.5 will be revised to comply with the current IEC/EN 62471 standard."

Q9. Can we have an extension to the closing date?

Q10. Can bids be submitted electronically or by e-mail in a PDF format?

Q11. The resolution of 1024 for the cameras. This resolution is not typically required to capture License plate information, so our question is; Why are you requesting that, and will you accept bids with lower resolution that still allow you capture license plates and meet all the other specs of the camera?

Q12. Do you have a list of local people you work with that we could work with to provide the service levels you are requesting?

Answers:

A8. Your company's bid would need to indicate what classification standard it is complying with meeting, and/or has exemptions under, and we can evaluate based on whether each classification standard compliance and/or exemptions will meet our needs.

It would be best to indicating meeting compliance and having exemptions, for as many or all individual classification standards, within your bid package.

A9. **The Bid deadline is still set for March 12, 2018 at 14:00 MDT**, see attached Solicitation Amendment 001, which also provides additional delivery deadline details under Q1 & A1.

We are reluctant to extend the bid deadline, as our office still needs time to complete technical and financial evaluations and security verifications prior to possible contract award, this doesn't leave much time to extend the solicitation, if possible.

A10. Bids are only accepted by courier at this time, we do not accept bid electronically by email or fax.

A11. See attached response of Solicitation Amendment 001, under Q3 & A3.

A12. The RCMP has four (4) contractors who currently complete RCMP vehicle fit-ups, under first right of refusal and priority, through standing offers, which expire November 13, 2018.
