Please amend the above mentioned bidding solicitation with the changes here below in relation to the Solicitation closing date and the Vessel viewing.

Item 1 – Section 12 – Assessment of the Vessel's condition, of the statement of requirement

Add the following section: Section 12 – Assessment of the Vessel's condition, to the statement of requirement;

12. ASSESSMENT OF THE VESSEL'S CONDITION (Optional)

12.1. Scope of work

The purpose of the work is to assess the loss of steel thickness in certain structures and pipes referred to in this specification. The work will be done along a wharf, and the vessel will be afloat. The work will take place during spring 2018 maintenance and continue during fall 2018 maintenance.

12.2. References

12.2.1. Reference material

- PGL-131-2017-A_utm report_Amundsen
- MTL1200703_Amundsen_Condition_Assessment_Report
- Amundsen-TM-March-2013
- UTM, Ponts du navire- Amundsen

12.2.2. Reference drawings

- 222-H-101 General arrangement plan
- 222-H-146 Tank capacity plan
- 221-H-1 Shell plating expansion plan
- 221-H-138 Constructions sections
- 221-H-139 Profiles and decks
- 221-H-80 Insulation plan

12.3. Technical description

12.3.1. General

12.3.1.1. The Contractor must provide for the services of a firm specializing in ultrasonic non-destructive testing to determine structural steel thickness.

12.3.1.2. The non-destructive testing firm shall be certified by a Classification Society as a service provider in vessel structure thickness measurements. The class approval certificate shall be provided to the Technical Authority (TA). Operator and supervisor approval certificates shall also be provided to the TA.

12.3.1.3. The steel thickness diminution limit dictated by the Classification Society is 30% for the plates and 25% for the stiffeners. For purposes of this condition assessment, the allowable diminution of steel thickness shall be two thirds (2/3) of the diminution limit dictated by the class. Excessive thickness diminution will therefore be 20% for the plates and 16.7% for the stiffeners.

-
- 12.3.1.4. The Contractor and its sub-contractors shall hold all data derived from the work of this survey in strictest confidence and shall not divulge these data and conclusions to any third party.
 - 12.3.1.5. The Contractor shall include a \$10,000 allowance to cover the non-destructive testing firm's travel expenses. Travel and living expenses shall be billed at cost without added overhead or profit. The \$10,000 allowance shall form part of the overall bid, and shall be adjusted by Work Arising action upon receipt of the final FSR invoice supported by copies of all related documentation to verify actual expenses.
 - 12.3.1.6. The Contractor shall provide all necessary materials and labour to assist the specialized firm in gaining access to the exterior and interior portions of the vessel's hull and structure that need to be surveyed, including clearing away interference items. Gas freeing and certification of tanks as safe to enter must be included.
 - 12.3.1.7. The Contractor shall include the unit price for taking additional measurements. For bidding purposes, the Contractor shall consider a price for taking 500 additional thickness measurements.
 - 12.3.1.8. The Contractor shall provide an hourly rate for preparation of steel replacement drawings. For bidding purposes, the Contractor shall bid for 75 hours of steel replacement drawing preparation.
 - 12.3.1.9. The Contractor shall provide a detailed survey schedule that integrates the Condition Survey requirements into the general work being performed outside of the Condition Survey. The preliminary schedule shall be presented at the start of the contract and shall be updated at no greater intervals than bi-weekly showing the progress of the survey work.

12.3.2. Extent of structural thickness measurements

- 12.3.2.1. Thickness measurements shall be carried out at points that adequately represent the nature and extent of any corrosion or wastage of the representative structure (plate, web, longitudinal, etc.). The section of steel to be replaced shall be marked off using the five-point pattern method.

12.3.2.2. List of structures to be evaluated by thickness measurement:

- 1. Exposed deck plates;
- 2. A representative sample of the accommodation structure and, in particular, the junction of the bulkheads with the exposed deck plates;
- 3. Cargo hold hatch cover and coamings;
- 4. Central store hatch covers and coamings;
- 5. Complete structure of the helicopter hangar rail wells;
- 6. Flight deck inside the helicopter hangar;
- 7. Trimming and peak tank transverse and longitudinal bulkhead plates, stringers, stiffeners and girders;
- 8. All transverse web frames plating and stiffeners system in trimming and peak tank, including longitudinal component i.e. deck plating, longitudinal stiffening, girder, etc.;

-
9. All primary and secondary structure in the peaks and trimmings tank- transverse and longitudinal;
 10. Shell and tank top plating immediately adjacent to tank top margins;
 11. Shell / accommodation plating below lights and windows;
 12. Side shell / accommodation plating in way of galleys, washrooms and refrigerated store spaces;
 13. Structure in way of integral sanitary tanks;
 14. Structure of the ventilation plenum chambers (Fr 76–79 and Fr 103–108) on the flight deck;
 15. Fore and aft mast base;
 16. All Steel Floors in compartments such as compartment #411, 412, 413, 415, 420, 416, 417, 410, 418, 419, 316, 314, 315, 316, 560, 561, 558, 549, 550, 551, 552, 553, 554, 555, 556, etc.;
 17. Vents on the upper deck tanks, and the upper deck vent openings;
 18. Representative sampling in the following empty spaces:
 - Empty space around the helicopter fuel tank;
 - Empty space at Fr 165–175 (former sea chest);
 - Duct keel;
 - Empty space # 3;

12.3.3. Support

- 12.3.3.1. The Contractor shall remove and reinstall, to as-found condition, the bulkhead, ceiling, and deck panel coverings and insulation. The Contractor shall repair any damage caused during removal and installations.
- 12.3.3.2. Areas where coatings have been removed shall be repaired by the application of 2 coats of approved primer as per coating manufacturer's recommendations.
- 12.3.3.3. The Contractor shall bid on removing and installing 20 m² of deck head panels and 20 m² of thermal insulation.
- 12.3.3.4. The Contractor shall supply all other materials needed to reinstall and restore the bulkhead, ceiling and deck panel coverings and insulation to as-found condition.
- 12.3.3.5. The Contractor shall restore all spaces and areas opened or exposed for the Condition Survey to serviceable condition. Materials used for the restorations shall meet the requirements of the Canada Shipping Act and associated regulations. New gaskets shall be fitted.
- 12.3.3.6. Support services shall include the opening and closing of all tanks and other spaces, including preparation for safe entry and maintaining spaces for safe entry for duration of survey period and closing out.
- 12.3.3.7. Support services shall include the provision of all staging, man lifts, ladders, fall-arrest, and all other services required to provide access to carry out the work of this specification.

Solicitation No – Nº de l'invitation Amd. No. – Nº de la modif. Buyer ID – id de l'acheteur
F3756-18N544/A 001 qcl 036
Client Ref No. – Nº de réf. du client File No. – Nº du dossier
F3756-18N544 QCL-7-40315

12.3.3.8. The Contractor shall provide a minimum of 48 hours' notice to the TA of the work items pertaining to the Condition Survey such that the TA may make arrangements to have fluids moved from tanks, etc., if required.

12.3.3.9. The Contractor is responsible for providing confined space and elevated rescue services for these employees and sub-contractors. The Contractor and the Classification Society shall adhere to the requirements of the Fleet Safety and Security Manual (DFO/5737) with regard to Confined Space Entry and Working Aloft procedures.

12.4. Proof of performance

12.4.1. Deliverable documents

12.4.1.1. The Contractor shall submit a report in PDF format no later than one month after all thickness measurements are taken.

12.4.1.2. The report shall include the steel thickness measurements, which shall be recorded in detail on a shell expansion plan of the vessel or in a detailed structural drawing. The measurements shall be recorded in a table indicating:

12.4.1.2.1. Location of the plate or stiffener

12.4.1.2.2. Compartment or structure involved

12.4.1.2.3. Exact location of the measurement in relation to the longitudinal or transverse reference points (centerline, frames, etc.)

12.4.1.2.4. Original steel thickness

12.4.1.2.5. Current steel thickness

12.4.1.2.6. Steel thickness limits

12.4.1.2.7. Steel thickness diminution percentage

12.4.1.3. The Contractor shall prepare production drawings indicating the steel sections to be replaced in accordance with the criteria set out in this specification. The drawings shall provide sufficient detail to allow a third party to bid later for steel replacement work. The steel sections to be replaced shall be represented on the vessel structural drawings to show the exact location of the work. The TA will provide those drawings in accordance with the Contractor's requirements in order to produce the steel replacement drawings. The drawings shall include the dimensions of the steel section to be replaced: thickness, width and length. A steel table shall list all steel sections to be replaced, their location, and the weight of the steel.

12.4.1.4. The Contractor's report shall include a detailed cost estimate for repairs/renewals. The report shall include a price per unit of mass (\$/lb) depending on the location of the steel to be replaced.

Item 2 – Section 13 – Transfer Switch – Science Winch, of the statement of requirement

Add the following section: Section 13 – Transfer Switch – Science Winch, to the statement of requirement;

13. TRANSFER SWITCH – SCIENCE WINCH

13.1. Scope of work

The objective of the work is to be able to transfer the 440V / 3/60 power supply from the hydraulic pump # 1 to the hydraulic pump # 2, keeping the existing transfer system for the hydraulic pump # 2 and the bow thruster.

13.2. Reference

13.2.1. Reference documents

- item 13 – Transfer Switch

13.3. Technical description

13.3.1. Provide material and labor to perform the work outlined in the document: item 13 - Commutateur de transfert.

13.4. Proof of performance

13.4.1. Deliverables:

13.4.1.1. The Contractor shall submit the installed equipment maintenance manuals and "as-built" drawings to the TA in PDF and editable CAD format.

CCGS AMUNDSEN – REFIT SPRING 2018

F3756-18N544/A

CONFÉRENCE DE SOUMISSIONNAIRES / BIDDERS' CONFERENCE

PROCÈS VERBAL / MINUTES

La conférence des soumissionnaires présidée par l'autorité contractante est tenue à bord du navire NGCC Amundsen à 09h00, le **15 mars 2018**. Le navire sera amarré à la section 97, dans le Port de Québec, QC. /

The Bidders' Conference chaired by the Contracting Authority is held on board vessel CCGS Amundsen at 9:00 am, **March 15th, 2018**. The vessel will be docked at Section 97, in the Port of Quebec, QC.

A) MOT DE BIENVENUE/WELCOMING MESSAGE:

Le président s'est présenté et a souhaité la bienvenue à tous les participants et remercier le soumissionnaire présent pour son intérêt pour le présent projet. /

The Chairperson introduced himself and welcomed all attendees and thanked the bidder in attendance for his interest in this project.

B) INTRODUCTION:

Le président a expliqué que le but de la présente réunion était de passer en revue le document d'Appel d'offres portant le numéro F3756-18N544/A et le devis technique afin d'éclaircir tout point qui pourrait être obscur pour les soumissionnaires présents. /

The Chairperson explained that this meeting was aimed at reviewing the Invitation to Tender document bearing serial number F3756-18N544/A in order to clarify any points brought up by any participant.

C) PRÉSENCES/PERSONS IN ATTENDANCE

Le président a indiqué qu'il agirait à titre d'autorité contractuelle pour le projet. Il a demandé aux participants de se présenter à tour de rôle. /

The Chairperson stated that he will be acting as the Contracting Authority. He asked the attendees to introduce themselves.

<u>Nom / Name</u>	<u>Occupation / Rank</u>	<u>Cie. ou min. / Co. or Dept</u>
Doris Chevrier	Chargé de projet / Project manager	RNI Océan
Alexandre Gouin	Gestionnaire principal / Senior Vessel Maintenance Manager	GCC/CCG
Mathieu Gagnon	Chef de l'approvisionnement (marine) / Supply Chief (marine)	TPSGC / PWGSC

D) RÉVISION DES DOCUMENTS DE SOUMISSION/BID PACKAGE REVIEW

1) DOCUMENT D'APPEL D'OFFRES/INVITATION FOR TENDER

- PARTIE 1 RENSEIGNEMENTS GÉNÉRAUX / GENERAL INFORMATION
PART 1 BIDDER INSTRUCTIONS

- Il est rappelé que les clauses générales 2030 font partie du contrat. /
It is reminded that General Clauses 2030 apply to the Contract

- PARTIE 2 INSTRUCTIONS À L'INTENTION DES SOUMISSIONNAIRES
PART 2 BIDDER INSTRUCTIONS

2.3 Demande de renseignements en période de soumission:
2.3 Enquiries - Bid Solicitation

On demande que les demandes de renseignements nous parviennent au moins 7 jours civils avant la date de clôture mais TPSGC fera tout son possible pour répondre aux demandes reçues après ce délai en autant que la nature de la demande le permette. /
It is requested that inquiries come at least 7 calendar days before the bid closing date but PWGSC will do its best to answer requests received after that time as long as the nature of the request allows it.

Les réponses aux questions émises lors de la conférence des soumissionnaires et de la visite de lieux ont été ou seront transmises au sein d'une modification à l'invitation à soumissionner.

Answers to questions submitted during the bidder's conference and the vessel's viewing have been or will be transmitted within an amendment to the Invitation to Tender.

2.6 Visite du navire (Facultative)
2.6 Viewing – Vessel (Not mandatory)

Une visite des lieux sera tenue immédiatement après la conférence des soumissionnaires.
A visit of the vessel will be held immediately after the bidders' conference.

2.7 Période des travaux - marine - soumission
2.7 Work Period – Marine - Bid

Les travaux doivent débuter et prendre fin comme suit :
Work must commence and be completed as follows:

Période du printemps 2018 :

Début : 15 avril 2018 ou selon la disponibilité du navire. (À la date la plus hâtive.)

Fin : 11 mai 2018 /

Spring 2018 Period:

Start: April 15th, 2018 or as per ship's availability. (At the earlier date.)

End: May 11th, 2018

Période d'automne 2018 :

(Pour les travaux optionnels uniquement, à la discrétion du Canada) :

Début : 19 octobre 2018 ou selon la disponibilité du navire. (À la date la plus hâtive.)

Fin : 6 décembre 2018 /

Fall 2018 Period:

(For optional work only, at Canada's discretion)

Start: October 19th, 2018 or as per ship's availability. (At the earlier date.)

End: December 6th, 2018

Il est rappelé au soumissionnaire, qu'en présentant sa réponse à la demande de soumissions, il confirme que le calendrier susmentionné constitue une période adéquate pour effectuer les travaux nécessaires et absorber une quantité raisonnable de travaux non prévus. /

It is reminded that, Bidder agrees through submission of its response to the bid solicitation that the above time frame provides an adequate period to perform the subject work and absorb a reasonable amount of unscheduled work.

2.12 Vessel Refit, Repair or Docking - Cost
2.12 Radoub, réparation ou carénage de navires – coûts

Toutes les charges, coûts et débours consécutifs à l'exécution des travaux, incluant tous les articles décrits aux conditions générales supplémentaires 1029 (2010-08-16)

Réparation de navires, section (07) sont inclus dans le prix d'évaluation (et dans le prix du contrat). /

All charges, fees expenses and disbursements incidental to the carrying out of the Work, including all items described in Supplemental General Conditions 1029 (2010-08-16) Ship Repair, section (07), are included in the Evaluation Price (and in the Contract Price under the Contract).
