Amendment 001 – Solicitation # F2441-170021 Canadian Coast Guard – Three Alum Boats

Solicitation amendment required to address the following revisions;

1. ANNEX B – BIDDERS' QUESTION & CANADA'S ANSWERS

The design requirements for the cabin in the technical statement 1.15-1.1.10 call for

- sleeping berths for 2
- Private head with door
- Galley table for 3
- Counter for stove, sink and fridge
- Steering and navigation space.

We need further clarification on these requirements as the space available in the cabin is not adequate for the listed requirements.

Question 1: Space could be made under the forward working deck, but would be height limited.

Response 1: Not an issue if height limited but the space must be suitable to allow personnel to functionally use that space and to safely evacuate the area quickly if required to do so.

Question 2: We'd also need to boost the height on the deckhouse to restore visibility.

Response 2: No issues with raising the height of the cabin as long as it does not affect stability.

Question 3: Section 1.1.7 states galley table is to convert to sleeping platform is this to be considered one of the 2 berths that are required.

Response 3: No. The galley table would be 1 of 3 berths.
