Amendment 02

This amendment is being raised to distribute questions and answers.

Q1 Are the two pits listed above (KM 69 Pit and Cascade Pit) available to the Contractor to extract aggregate and crush to AT specs shown above for this project?

A1 Pits are not available within the National Parks for aggregate production. Refer to Section 01 11 00 Clause 1.4.4.

Q2 Can an asphalt plant be set up in these pits? If not, why are these references (5. KM 69 Pit Plan – Nov 2017 and 6. Cascade Pit Plan – Jan 2018) included and what are these pits available to the Contractor for?

A2 Asphalt plants are not permitted in the National Parks for this project. Refer to Section 01 11 00 Clause 1.4.5. Owner supplied spray patch aggregate is available in 69 Pit. Refer to Section 01 11 00 Clause 1.10.2.

Q3 The Cascade Pit Plan shows a “2018 PAVING CONTRACTOR LIMITS”. What is this area intended for?

A3 Temporary laydown areas may be permitted in Cascade Pit confined to the area shown in Reference Document 6. Cascade Pit Plan – Jan 2018. Approval for use of the area within Cascade Pit is subject to the review and approval by the Departmental Representative.

Q4 Can you provide clarification in regards to item 16(iii) CDB-E 810 Drainage Barrier, in regards to the drainage structure shown on drawing C302. The plan shows (2) types of drainage structure but no quantities for each type. I assume that since there are 104 pcs of CDB-E that there will also be the same amount of drainage structures.

a. what is the quantity of drainage flume with CSP pipe and what is the quantity of rip rap drainage flume?

A4a. The tender quantity for CSP downpipes is zero. Refer to Unit Price Item 4 for the estimated tender quantity of riprap for spillways.

b. Under what item # do I include the pricing for this work.

A4b. Unit Price Item 4.

All other terms and conditions remain unchanged.
