This amendment (2) seeks to answer vendors' questions.

1) Questions and answers

Q1- Is PSPC planning on reusing any of the hardware/software that makes up the current system? (i.e. cameras, access readers, occupancy sensors, etc..)

A1- Right now PSPC is evaluating new software/hardware that is available. Much of our existing hardware/software is outdated however, as we do have a mix of equipment, if there were some compatible pieces and reusing them offered a benefit we would explore that option.

Q2- Also for question 2) k) Cameras, are you looking for information about new cameras that could be provided, or information about how our Video Management System can play and manage video in HD?

A2-Both, for 2) k) we're looking for information on the cameras being proposed, or that can be provided, by the vendor to ensure they meet the requirements listed and in 2) l) we're looking for information on the video management system.

All other terms and conditions remain unchanged
