REQUEST FOR PROPOSAL

DEMANDE DE PROPOSITION

Proposal to: Fisheries and Oceans
Canada

We hereby offer to sell to Her Majesty
the Queen in right of Canada, in
accordance with the terms and
conditions set out herein, referred to
herein or attached hereto, the goods
and services listed herein and on any
attached sheets at the price(s) set out
therefor.

Proposition aux : Pêches et Océans
Canada

Nous offrons par la présente de
vendre à Sa Majesté la Reine du
chef du Canada, aux conditions
énoncées ou incluses par
référence dans la présente et aux
appendices ci-jointes, les biens et
les services énumérés ici sur
toute feuille ci-annexée, au(x) prix
indiqué(s).

Title – Sujet: Vessel and Crew to Support Fisheries and Oceans Canada – Spring 2019 Atlantic Zonal Offshore Monitoring Program		Date April 05, 2018
Solicitation No. – N° de l'invitation FP802-190002		
Client Reference No. - No. de référence du client FP834-170112		
Solicitation Closes – L'invitation prend fin At / à: 14:00 EDT(Eastern Daylight Time) On / le: April 26, 2017

PART 1 - GENERAL INFORMATION

1.1 Security Requirements

There is no security requirement associated with this bid solicitation

1.2 Statement of Work

The Work to be performed is detailed under Annex A of the resulting contract clauses.

1.3 Debriefings

Bidders may request a debriefing on the results of the bid solicitation process. Bidders should make the request to the Contracting Authority within 15 working days from receipt of the results of the bid solicitation process. The debriefing may be in writing, by telephone or in person.

1.4 Procurement Ombudsman

The Office of the Procurement Ombudsman (OPO) was established by the Government of Canada to provide an independent avenue for suppliers to raise complaints regarding the award of contracts under \$25,000 for goods and under \$100,000 for services. You have the option of raising issues or concerns regarding the solicitation, or the award resulting from it, with the OPO by contacting them by telephone at 1-866-734-5169 or by e-mail at opo-boa@opo-boa.gc.ca. You can also obtain more information on the OPO services available to you at their website at www.opo-boa.gc.ca.

PART 2 - BIDDER INSTRUCTIONS

2.1 Standard Instructions, Clauses and Conditions

All instructions, clauses and conditions identified in the bid solicitation by number, date and title are set out in the *Standard Acquisition Clauses and Conditions Manual* (<https://buyandsell.gc.ca/policy-and-guidelines/standard-acquisition-clauses-and-conditions-manual>) issued by Public Works and Government Services Canada.

Revision to Departmental Name: As this solicitation is issued by Fisheries and Oceans Canada (DFO), any reference to Public Works and Government Services Canada or PWGSC or its Minister contained in any term, condition or clause of this solicitation, including any individual SACC clauses incorporated by reference, will be interpreted as reference to DFO or its Minister.

Bidders who submit a bid agree to be bound by the instructions, clauses and conditions of the bid solicitation and accept the clauses and conditions of the resulting contract.

The 2003 (2016-04-04) Standard Instructions - Goods or Services - Competitive Requirements, are incorporated by reference into and form part of the bid solicitation.

Section 01 – Integrity Provisions – Bid of 2003 referenced above is amended as follows:

Delete section 01 in its entirety.

Section 02 – Procurement Business Number – of 2003 referenced above is amended as follows:

Delete section 02 in its entirety.

2.2 Submission of Bids

Bids must be submitted only to Fisheries and Oceans Canada (DFO) Bid Receiving Unit by the date, time and place indicated on page 1A of the bid solicitation.

Due to the nature of the bid solicitation, bids transmitted by facsimile to DFO will not be accepted.

2.3 Former Public Servant

Contracts awarded to former public servants (FPS) in receipt of a pension or of a lump sum payment must bear the closest public scrutiny, and reflect fairness in the spending of public funds. In order to comply with Treasury Board policies and directives on contracts awarded to FPSs, bidders must provide the information required below before contract award. If the answer to the questions and, as applicable the information required have not been received by the time the evaluation of bids is completed, Canada will inform the Bidder of a time frame within which to provide the information. Failure to comply with Canada's request and meet the requirement within the prescribed time frame will render the bid non-responsive.

Definitions

For the purposes of this clause, "former public servant" is any former member of a department as defined in the Financial Administration Act, R.S., 1985, c. F-11, a former member of the Canadian Armed Forces or a former member of the Royal Canadian Mounted Police. A former public servant may be:

- a. an individual;
- b. an individual who has incorporated;
- c. a partnership made of former public servants; or
- d. a sole proprietorship or entity where the affected individual has a controlling or major interest in the entity.

"lump sum payment period" means the period measured in weeks of salary, for which payment has been made to facilitate the transition to retirement or to other employment as a result of the implementation of various programs to reduce the size of the Public Service. The lump sum payment period does not include the period of severance pay, which is measured in a like manner.

"pension" means a pension or annual allowance paid under the Public Service Superannuation Act (PSSA), R.S., 1985, c. P-36, and any increases paid pursuant to the Supplementary Retirement Benefits Act, R.S., 1985, c. S-24 as it affects the PSSA. It does not include pensions payable pursuant to the Canadian Forces Superannuation Act, R.S., 1985, c. C-17, the Defence Services Pension Continuation Act, 1970, c. D-3, the Royal Canadian Mounted Police Pension Continuation Act, 1970, c. R-10, and the Royal Canadian Mounted Police Superannuation Act, R.S., 1985, c. R-11, the Members of Parliament Retiring Allowances Act, R.S. 1985, c. M-5, and that portion of pension payable to the Canada Pension Plan Act, R.S., 1985, c. C-8.

Former Public Servant in Receipt of a Pension

As per the above definitions, is the Bidder a FPS in receipt of a pension? **Yes () No ()**

If so, the Bidder must provide the following information, for all FPSs in receipt of a pension, as applicable:

- a. name of former public servant;
- b. date of termination of employment or retirement from the Public Service.

By providing this information, Bidders agree that the successful Bidder's status, with respect to being a former public servant in receipt of a pension, will be reported on departmental websites

as part of the published proactive disclosure reports in accordance with Contracting Policy Notice: 2012-2 and the Guidelines on the Proactive Disclosure of Contracts.

Work Force Adjustment Directive

Is the Bidder a FPS who received a lump sum payment pursuant to the terms of the Work Force Adjustment Directive? **Yes** () **No** ()

If so, the Bidder must provide the following information:

- a. name of former public servant;
- b. conditions of the lump sum payment incentive;
- c. date of termination of employment;
- d. amount of lump sum payment;
- e. rate of pay on which lump sum payment is based;
- f. period of lump sum payment including start date, end date and number of weeks;
- g. number and amount (professional fees) of other contracts subject to the restrictions of a work force adjustment program.

For all contracts awarded during the lump sum payment period, the total amount of fees that may be paid to a FPS who received a lump sum payment is \$5,000, including Applicable Taxes.

2.4 Enquiries - Bid Solicitation

All enquiries must be submitted in writing to the Contracting Authority no later than 5 calendar days before the bid closing date. Enquiries received after that time may not be answered.

Bidders should reference as accurately as possible the numbered item of the bid solicitation to which the enquiry relates. Care should be taken by bidders to explain each question in sufficient detail in order to enable Canada to provide an accurate answer. Technical enquiries that are of a proprietary nature must be clearly marked "proprietary" at each relevant item. Items identified as "proprietary" will be treated as such except where Canada determines that the enquiry is not of a proprietary nature. Canada may edit the question(s) or may request that the Bidder do so, so that the proprietary nature of the question(s) is eliminated, and the enquiry can be answered to all bidders. Enquiries not submitted in a form that can be distributed to all bidders may not be answered by Canada.

2.5 Applicable Laws

Any resulting contract must be interpreted and governed, and the relations between the parties determined, by the laws in force **in the province or territory where the goods and/or services are to be rendered**.

Bidders may, at their discretion, substitute the applicable laws of a Canadian province or territory of their choice without affecting the validity of their bid, by deleting the name of the Canadian province or territory specified and inserting the name of the Canadian province or territory of their choice. If no change is made, it acknowledges that the applicable laws specified are acceptable to the bidders.

PART 3 - BID PREPARATION INSTRUCTIONS

3.1 Bid Preparation Instructions

Canada requests that bidders provide their bid in separately bound/saved sections as follows:

Section I: Technical Bid (one hard copy **OR** one soft copy in PDF format)

Section II: Financial Bid (one hard copy **OR** one soft copy in PDF format)

Section III: Certifications (one hard copy **OR** one soft copy in PDF format)

Please note that DFO prefers receipt of proposals in soft copy to the email address identified on page one of the solicitation. Emails must not exceed 8 MB (if over the limit Bidders are asked to send additional numbered emails)

If there is a discrepancy between the wording of the soft copy and the hard copy, the wording of the hard copy will have priority over the wording of the soft copy.

Prices must appear in the financial bid only. No prices must be indicated in any other section of the bid.

Canada requests that bidders follow the format instructions described below in the preparation of their bid:

- a) use 8.5 x 11 inch (216 mm x 279 mm) paper;
- b) use a numbering system that corresponds to the bid solicitation.

In April 2006, Canada issued a policy directing federal departments and agencies to take the necessary steps to incorporate environmental considerations into the procurement process [Policy on Green Procurement](http://www.tpsgc-pwgsc.gc.ca/ecologisation-greening/achats-procurement/politique-policy-eng.html) (<http://www.tpsgc-pwgsc.gc.ca/ecologisation-greening/achats-procurement/politique-policy-eng.html>). To assist Canada in reaching its objectives, bidders should:

1. use 8.5 x 11 inch (216 mm x 279 mm) paper containing fibre certified as originating from a sustainably-managed forest and containing minimum 30% recycled content; and
2. use an environmentally-preferable format including black and white printing instead of colour printing, printing double sided/duplex, using staples or clips instead of cerlox, duotangs or binders.

Section I: Technical Bid

In their technical bid, bidders should explain and demonstrate how they propose to meet the requirements and how they will carry out the Work.

Section II: Financial Bid

Bidders must submit their financial bid in accordance with the Basis of Payment. The total amount of Applicable Taxes must be shown separately.

Section III: Certifications

Bidders must submit the certifications required under Part 5.

PART 4 - EVALUATION PROCEDURES AND BASIS OF SELECTION

4.1 Evaluation Procedures

- (a) Bids will be assessed in accordance with the entire requirement of the bid solicitation including the technical and financial evaluation criteria.
- (b) An evaluation team composed of representatives of Canada will evaluate the bids.

4.1.1 Technical Evaluation

4.1.1.1 Mandatory Technical Criteria

Please see Annex E for details

4.1.1.2 Point Rated Technical Criteria

Please see Annex E for details

4.1.2 Financial Evaluation

SACC Manual Clause [A0220T \(2014-06-26\)](#), Evaluation of Price (*Bid*)

4.2 Basis of Selection

- 4.2.1** Mandatory Technical Criteria
SACC Manual Clause (A0031T) ([2010-08-16](#))

PART 5 - CERTIFICATIONS

Bidders must provide the required certifications and associated information to be awarded a contract.

The certifications provided by bidders to Canada are subject to verification by Canada at all times. Canada will declare a bid non-responsive, or will declare a contractor in default in carrying out any of its obligations under the Contract, if any certification made by the Bidder is found to be untrue whether made knowingly or unknowingly, during the bid evaluation period or during the contract period.

5.1 Certifications Precedent to Contract Award and Certifications Required with the Bid

5.1.1 Certifications Precedent to Contract Award

The certifications listed below should be completed and submitted with the bid, but may be submitted afterwards. If any of these required certifications is not completed and submitted as requested, the Contracting Authority will inform the Bidder of a time frame within which to provide the information. Failure to comply with the request of the Contracting Authority and to provide the certifications within the time frame provided will render the bid non-responsive.

5.1.1.1 Federal Contractors Program for Employment Equity - Bid Certification

By submitting a bid, the Bidder certifies that the Bidder, and any of the Bidder's members if the Bidder is a Joint Venture, is not named on the Federal Contractors Program (FCP) for employment equity "[FCP Limited Eligibility to Bid](http://www.labour.gc.ca/eng/standards_equity/eq/emp/fcp/list/inelig.shtml)" list (http://www.labour.gc.ca/eng/standards_equity/eq/emp/fcp/list/inelig.shtml) available from [Employment and Social Development Canada \(ESDC\) - Labour's website](#).

Canada will have the right to declare a bid non-responsive if the Bidder, or any member of the Bidder if the Bidder is a Joint Venture, appears on the "[FCP Limited Eligibility to Bid](#)" list at the time of contract award.

5.1.2 Certifications Required with the Bid

Bidders must submit the following duly completed certifications with their bid.

5.1.2.1 Insurance

The Contractor must forward to the Contracting Authority, a Certificate of Insurance evidencing the insurance coverage and confirming that the insurance policy complying with the requirements is in force.

5.1.2.2 Contractor's Representative

The Contractor's Representative for the Contract is:

Name: _____
 Title: _____
 Address: _____
 Telephone: _____
 Facsimile: _____
 E-mail: _____

5.1.2.3 Supplementary Contractor Information

Pursuant to paragraph 221 (1)(d) of the Income Tax Act, payments made by departments and agencies under applicable services contracts (including contracts involving a mix of goods and services) must be reported on a T4-A supplementary slip.

To enable the Department of Fisheries and Oceans to comply with this requirement, the Contractor hereby agrees to provide the following information which it certifies to be correct, complete, and fully discloses the identification of this Contractor:

- a) The legal name of the entity or individual, as applicable (the name associated with the Social Insurance Number (SIN) or Business Number (BN), as well as the address and the postal code:

- b) The status of the contractor (individual, unincorporated business, corporation or partnership:

- c) For individuals and unincorporated businesses, the contractor's SIN and, if applicable, the BN, or if applicable, the Goods and Services Tax (GST)/Harmonized Sales Tax (HST) number:

- d) For corporations, the BN, or if this is not available, the GST/HST number. If there is no BN or GST/HST number, the T2 Corporation Tax number must be shown:

The following certification signed by the contractor or an authorized officer:

"I certify that I have examined the information provided above and that it is correct and complete"

Signature

Print Name of Signatory

PART 6 - RESULTING CONTRACT CLAUSES

The following clauses and conditions apply to and form part of any contract resulting from the bid solicitation.

6.1 Security Requirements

6.1.1 There is no security requirement applicable to this Contract.

6.2 Statement of Work

The Contractor must perform the Work in accordance with the Statement of Work at Annex "A".

6.3 Standard Clauses and Conditions

All clauses and conditions identified in the Contract by number, date and title are set out in the [Standard Acquisition Clauses and Conditions Manual](https://buyandsell.gc.ca/policy-and-guidelines/standard-acquisition-clauses-and-conditions-manual) (https://buyandsell.gc.ca/policy-and-guidelines/standard-acquisition-clauses-and-conditions-manual) issued by Public Works and Government Services Canada.

Revision to Departmental Name: As this contract is issued by Fisheries and Oceans Canada (DFO), any reference to Public Works and Government Services Canada or PWGSC or its Minister contained in any term, condition or clause of this contract, including any individual SACC clauses incorporated by reference, will be interpreted as reference to DFO or its Minister.

6.3.1 General Conditions

[2010C \(2016-04-04\)](#), General Conditions - Services (Medium Complexity) apply to and form part of the Contract.

Section 27 – Integrity Provisions – Contract of 2010C referenced above is amended as follows: Delete section 27 in its entirety.

6.4 Term of Contract

6.4.1 Period of the Contract

The period of the Contract is from contract award through to June 15, 2017.

6.5 Authorities

6.5.1 Contracting Authority

The Contracting Authority for the Contract is:

Name: Beverly Shawana
Title: Senior Contracting Officer
Department: Fisheries and Oceans Canada
Directorate: Materiel and Procurement Services
Address: 200 Kent Street, Station 9E249
Ottawa, Ontario K1A 0E6
Telephone: 613-407-3861
E-mail address: Beverly.shawana@dfo-mpo.gc.ca

The Contracting Authority is responsible for the management of the Contract and any changes to the Contract must be authorized in writing by the Contracting Authority. The Contractor must not perform work in excess of or outside the scope of the Contract based on verbal or written requests or instructions from anybody other than the Contracting Authority.

6.5.2 Project Authority

The Project Authority for the Contract is **(name to be provided at contract award)**

Name: _____
 Title: _____
 Organization: _____
 Address: _____

Telephone : ____ - ____ - _____
 Facsimile: ____ - ____ - _____
 E-mail address: _____

The Project Authority is the representative of the department or agency for whom the Work is being carried out under the Contract and is responsible for all matters concerning the technical content of the Work under the Contract. Technical matters may be discussed with the Project Authority, however the Project Authority has no authority to authorize changes to the scope of the Work. Changes to the scope of the Work can only be made through a contract amendment issued by the Contracting Authority.

6.5.3 Contractor's Representative (name to be provided at contract award)

Name: _____
 Title: _____
 Organization: _____
 Address: _____

Telephone : ____ - ____ - _____
 Facsimile: ____ - ____ - _____
 E-mail address: _____

6.6 Proactive Disclosure of Contracts with Former Public Servants

By providing information on its status, with respect to being a former public servant in receipt of a [Public Service Superannuation Act](#) (PSSA) pension, the Contractor has agreed that this information will be reported on departmental websites as part of the published proactive disclosure reports, in accordance with [Contracting Policy Notice: 2012-2](#) of the Treasury Board Secretariat of Canada.

6.7 Payment

6.7.1 Basis of Payment

6.7.1.1 In consideration of the Contractor satisfactorily completing all of its obligations under the Contract, the Contractor will be paid a firm price of \$ _____ *(insert amount at contract award)* and Applicable Taxes are extra.

6.7.1.1 All prices and amounts of money in the Contract are exclusive of the Goods and Services Tax (GST) or Harmonized Sales Tax (HST), whichever is applicable, unless otherwise indicated. GST or HST, to the extent applicable, will be incorporated into all invoices and progress claims for goods supplied or work performed and will be paid by Her Majesty. The Contractor agrees to remit to Canada Revenue Agency any GST or HST paid or due.

6.7.1.2 Any payment by Her Majesty under this contract is subject to there being an appropriation for the fiscal year in which the payment is to be made.

6.7.2 Limitation of Price

SACC Manual clause [C6000C \(2011-05-16\)](#) Limitation of Price

6.7.3 Single Payment

Canada will pay the Contractor upon completion and delivery of the Work in accordance with the payment provisions of the Contract if:

- a. an accurate and complete invoice and any other documents required by the Contract have been submitted in accordance with the invoicing instructions provided in the Contract;
- b. all such documents have been verified by Canada;
- c. the Work delivered has been accepted by Canada.

6.8 Invoicing Instructions

6.8.1 Payments will be made provided that:

6.8.1.1 The invoice(s) must be emailed to DFO Accounts Payable, at the email address indicated below:

Email: DFO.invoicing-facturation.MPO@canada.gc.ca

6.8.1.2 The Contractor must submit invoices in accordance with the section entitled "Invoice Submission" of the general conditions. Invoices cannot be submitted until all work identified in the invoice is completed.

6.9 Certifications

6.9.1 Compliance

The continuous compliance with the certifications provided by the Contractor in its bid and the ongoing cooperation in providing associated information are conditions of the Contract. Certifications are subject to verification by Canada during the entire period of the Contract. If the Contractor does not comply with any certification, fails to provide the associated information, or if it is determined that any certification made by the Contractor in its bid is untrue, whether made knowingly or unknowingly, Canada has the right, pursuant to the default provision of the Contract, to terminate the Contract for default.

6.9.2 Federal Contractors Program for Employment Equity - Default by the Contractor

The Contractor understands and agrees that, when an Agreement to Implement Employment Equity (AIEE) exists between the Contractor and Employment and Social

Development Canada (ESDC)-Labour, the AIEE must remain valid during the entire period of the Contract. If the AIEE becomes invalid, the name of the Contractor will be added to the "[FCP Limited Eligibility to Bid](#)" list. The imposition of such a sanction by ESDC will constitute the Contractor in default as per the terms of the Contract.

6.10 Applicable Laws

The Contract must be interpreted and governed, and the relations between the parties determined, by the laws in force in **the province or territory where the goods and/or services are to be rendered.**

6.11 Priority of Documents

If there is a discrepancy between the wording of any documents that appear on the list, the wording of the document that first appears on the list has priority over the wording of any document that subsequently appears on the list.

- (a) the Articles of Agreement;
- (a) the general conditions [2010C \(2016-04-04\)](#), General Conditions - Services (Medium Complexity);
- (b) Annex A, Statement of Work;
- (c) Annex B, Basis of Payment;
- (d) Annex C, Insurance Conditions;
- (e) Annex D, Additional Vessel Conditions;
- (f) Annex E, Application Form and Mandatory Evaluation Criteria

6.12 Procurement Ombudsman

6.12.1 The Contractor confirms that it has read the Code of Conduct for Procurement and agrees to be bound by its terms.

6.12.2 The office of the Procurement Ombudsman (OPO) was established by the Government of Canada to provide an independent avenue for suppliers to raise complaints regarding the award of contracts under \$25,000.00 for Goods and under \$100,000.00 for Services. You have the option of raising issues or concerns regarding the solicitation, or the award resulting from it, with the OPO by contacting them by telephone at 1-866-734-5169 or by e-mail at opo-boa@opo-boa.gc.ca. You can also obtain more information on OPO services available to you on their website at www.opo-boa.gc.ca.

6.12.3 For further information, the Contractor may refer to the following PWGSC site:

<http://www.tpsgc-pwgsc.gc.ca/app-acq/cndt-cndct/contexte-context-eng.html>

6.13 Insurance – Specific Requirements G1001C (2013-11-06)

The Contractor must comply with the insurance requirements specified in Annex C. The Contractor must maintain the required insurance coverage for the duration of the Contract. Compliance with the insurance requirements does not release the Contractor from or reduce its liability under the Contract.

The Contractor is responsible for deciding if additional insurance coverage is necessary to fulfill its obligation under the Contract and to ensure compliance with any applicable law. Any additional insurance coverage is at the Contractor's expense, and for its own benefit and protection.

The Contractor must forward to the Contracting Authority within ten (10) days after the date of award of the Contract, a Certificate of Insurance evidencing the insurance coverage and confirming that the insurance policy complying with the requirements is in force. For Canadian-based Contractors, coverage must be placed with an Insurer licensed to carry out business in Canada, however, for Foreign-based Contractors; coverage must be placed with an Insurer with an A.M. Best Rating no less than "A-". The Contractor must, if requested by the Contracting Authority, forward to Canada a certified true copy of all applicable insurance policies.

6.14 SACC Manual Clauses

SACC Manual clause [G5003C](#) (2014-06-26) Marine Liability Insurance

ANNEX "A" STATEMENT OF WORK

MARITIMES REGION 2019 AZOMP

1.0 Scope

1.1 Title

Vessel and Crew to Support Fisheries and Oceans Canada – Spring 2019 Atlantic Zonal Offshore Monitoring Program

1.2 Introduction

Fisheries and Oceans Canada (DFO) is seeking availability of a capable non-Canadian Coast Guard (CCG) Oceanographic Research Vessel to conduct its spring 2019 Atlantic Zonal Offshore Monitoring Program (AZOMP). Specifically, an Oceanographic Research Vessel is required for a period of 30 continuous days within the time period of May 1, 2019 up to June 15, 2019 at the latest. The Atlantic Zonal Offshore Monitoring Program is a time sensitive survey and needs to be conducted during this time period in order to allow for a meaningful measurement of the Deep Water Convection and description of the phytoplankton bloom period. The period is also critical for comparability of data and results with previous annual surveys conducted at this time and location.

1.4 Objectives of the Requirement

The AZOMP has the aim of collecting and analyzing the biological, chemical, and physical field data that are necessary to (1) characterize and understand the causes of oceanic variability at the seasonal, inter-annual, and decadal scales, (2) provide multidisciplinary data sets that can be used to establish relationships among the biological, chemical, and physical variables, and (3) provide adequate data to support the sound development of ocean activities.

1.5 Background, Assumptions and Specific Scope of the Requirement

1.5.1 Background

1.5.2 Scope

The Science Branch, Fisheries and Oceans Canada, Maritimes Region, Dartmouth, Nova Scotia, CANADA, requires the complete services of an Oceanographic Research Vessel charter (vessel and crew) to deliver its AZOMP monitoring program in the spring of 2019, to operate within the offshore waters of the Labrador Sea between the coasts of Canada and Greenland and offshore Nova Scotia. The monitoring program was implemented with the aim of increasing DFO's capacity to understand, describe, and forecast the state of the marine ecosystem and to quantify the changes in the ocean's physical, chemical, and biological properties.

The AZOMP cruise will consist in conducting operations at up to 70 designated water sampling stations (e.g., Conductivity, Temperature, Depth (CTD), plankton nets, and water bottle samples), up to 8 biological and chemical sampling stations (e.g., CTD, Optical properties profiling, and plankton net and water bottle sampling) and servicing sub-surface oceanographic moorings. Sampling will consist of the core and ancillary AZOMP work, with sampling up to 450 nautical miles offshore and down to water depths of 6,000 m. In support of the AZOMP monitoring program, deep water sampling will require a 24-bottle rosette with 10- or 12-litre (L) bottles. The vessel needs enough deck space to carry all of the mooring equipment for deployment in the Labrador Sea and on the Scotian Slope break. The Oceanographic operations (CTD, plankton nets and Optical package) require the

vessel to maintain station in a manor such that the hydro wire remains as close to vertical as possible while the instruments are lowered through the water column.

With the additional biological and chemical sampling for standard AZOMP work, there is a demand for large laboratory space, including a specialized radioisotopic laboratory (C-14). The area of operation for AZOMP is the Labrador Sea between the coast of Labrador, CANADA, and coast of GREENLAND, and south from the Scotian Shelf from within the Gulf Stream to the mouth of the Halifax harbour, CANADA. This annual monitoring program is usually carried out from CCG vessels. However, no CCG oceanographic research vessels are available in the spring of 2019.

2.0 Requirements

2.1 Tasks, Activities, Deliverables and Milestones

The Statement of Work outlines all requirements that an Offshore Research Vessel will include to be considered capable of completing the spring 2019 Atlantic Zonal Offshore Monitoring Program. The Bidder must provide proof of Contractor capability and vessel's capacity to meet all mandatory requirements. Copies of all relevant certificates (listed below) must be included in a Bidder's submission as proof. References to certificates (e.g., listed in Curriculum vitae) are not considered proof, as they cannot be substantiated. The onus is on the Bidder to submit all information and proof needed to clearly demonstrate that all criteria are met. This information must be included in the bid package and properly referenced from the table in Annex E.

Note: before contract award, Fisheries and Oceans Canada reserves the right to conduct a scheduled site visit with the compliant Bidder(s) to confirm contractor capability and vessel capacity in accordance with the Statement of Work and Evaluation Criteria.

2.2 Specifications and Standards

Section A: Mandatory Requirements

Vessel Certification and Documentation

- The Bidder must provide an unconditional and valid copy of the vessel's Transport Canada certificate Minimum Safe Manning Document – Convention with a Trading Area of Unlimited Voyage, or international equivalent. Compliance with this certification requirement is subject to verification by Canada during the bid evaluation period (certificate must be valid at time of bid closing) and after contract award (certificate must be valid for the duration of the contract).
- The Bidder must clearly demonstrate that the vessel has a tonnage of >500GT and provide a valid copy of the vessel's Transport Canada tonnage certificate (or recognized organization) and Safety Management Certificate or international equivalent. Compliance with this certification requirement is subject to verification by Canada during the bid evaluation period (certificate must be valid at time of bid closing) and after contract award (certificate must be valid for the duration of the contract).
- The Bidder must provide a valid copy of the vessel's Transport Canada (or recognized organization) Safety Equipment Certificate or international equivalent. Compliance with this certification requirement is subject to verification by Canada during the bid evaluation period (certificate must be valid at time of bid closing) and after contract award (certificate must be valid for the duration of the contract).
- The Bidder must provide documentation from an insurance broker, or an insurance company licensed to operate in Canada, stating that the Bidder, if awarded the contract as a result of the bid solicitation, can be insured in accordance with all conditions including Insurance Requirements.
- The Bidder must provide proof (copy) that the Captain(s) and officer(s) of the vessel possesses a valid certificate of competency that meets or exceeds the operation for size

(gross tonnage) of the vessel and the area of Work (Unlimited Voyage or international equivalent). Compliance with this certification requirement is subject to verification by Canada during the bid evaluation period (certificate must be valid at time of bid closing) and after contract award (certificate must be valid for the duration of the contract).

- The Bidder must provide the section of their Safety Management Plan that states that all crew members are required to have valid Marine Emergency Duty (MED) A1 certificates or Standard for Training, Certification and Watchkeeping (STCW Basic Safety). Compliance with this certification requirement is subject to verification by Canada after contract award (certificates must be valid for the duration of the contract).

Vessel Particulars

- The Vessel must be equipped for continuous operations for a period of up to 30 days (e.g., endurance range of Vessel, provisions, water making system, etc.).
- The Vessel must be able to accommodate a minimum of 22 scientific personnel (individuals consisting of both genders) for the duration of the mission. This includes:
 - provide sleeping accommodations (minimum of 22 berths and max of 4 person/cabin);
 - provide a minimum of 3 on-board meals per day;
 - provide drinking water, toilets, sinks, showers and hot water;
- The vessel must have lifesaving equipment sufficient for both the crew and 22 scientific personnel.
- The Vessel must be equipped with an oceanographic water-sampling system that consists of:
 - 24-bottles oceanographic rosette with 10- or 12-litre (L) bottles;
 - a launch and recovery system (LARS) – winch (minimum of 50 HP) and a crane or A-frame – to launch and recover the oceanographic rosette;
 - a dedicated metering block to accommodate wire size and minimum bend radius specification;
 - a minimum of 7,000 m of conducting cable on the winch (52 kN minimum breaking strength);
 - a Seabird Electronics SBE 911Plus CTD system with dual Temperature, Conductivity and Dissolved Oxygen sensors (DFO may provide additional sensors to be interfaced to the CTD). The operator must demonstrate that the CTD system has been serviced and calibrated within the last 12 months;
 - a CTD rosette-mounted bottom-detection system capable of detecting when the rosette is approaching 30 m above the ocean bottom in order to stop the winch 5 m before the CTD rosette hits the ocean bottom (10 m in rough weather); and
 - a dedicated work space (minimum area - 2.4 m X 2.4 m) on the working deck for handling the rosette before launching and for sampling bottles upon its recovery.
- The Vessel must be equipped with a Launch and Recovery System (LARS) that can accommodate the deployment of zooplankton nets, preferably from the side of the ship. The system should include:
 - winch with a minimum of 2,000 m of wire rope or cable (360 kg WLL);
 - a dedicated metering block;
 - a crane or A-Frame, and;
 - a source of seawater must be available nearby to wash down nets.
- The Vessel must be equipped with a Launch and Recovery System (LARS) that can accommodate the deployment of a MultiNet system. The same water-sampling LARS system could be used, but switching instruments (between the CTD-Rosette and Multinet systems) must take 10 minutes or less. The system should include:
 - winch with a minimum of 2,000 m of conducting cable (680 kg WLL);
 - a dedicated metering block to accommodate wire size and minimum bend radius specification;

- minimum area for on deck storage - 1.5 m X 2.0 m);
 - a crane or A-Frame (with minimum clearance height of 7 m), and;
 - a source of seawater must be available nearby to wash down nets.
- The Vessel must be equipped with a hull mounted echosounder capable of deep water sounding to a depth of at least 6,000 m with a graphical display and serial NMEA (National Marine Electronics Association) depth output.
- The Vessel must have a minimum unobstructed working deck space of 36 m² to accommodate mooring operations.
- The Vessel must have a minimum storage space of 36 m² for mooring equipment. Whether the equipment is stored on deck or within the cargo hold, it needs to be accessible at sea from the working deck area where mooring operations will be conducted.
- The Vessel must be equipped with a fantail A-frame for mooring operations. DFO's minimum requirements are
 - a minimum clearance height of 6 m;
 - a minimum width 3 m;
 - the capability to swing inboard 2 m and outboard 1.5 m;
 - a minimum static Working Load Limit (WLL) of 5 tons; and
 - a minimum dynamic Working Load Limit (WLL) of 1 ton.
- The Vessel must be equipped with a block that can be mounted on the fantail A- frame. Block minimum requirements for DFO are:
 - WLL of 5 tons
 - sheave Ø 12" [30 cm]
 - minimum mouth dimensions 4" [10 cm] X 4" [10 cm]
- The Vessel must be equipped with a mooring winch that is positioned in-line for use with the fantail A-frame located on the stern. The minimum requirements for the mooring winch for DFO are:
 - minimum drum barrel of Ø15" [38 cm];
 - spooling capacity of 1,000 m for Ø1/4" mooring wire, and;
 - minimum line pull of 900 kg.
- The Vessel must be equipped with a telescoping or knuckle boom marine crane. DFO minimum requirements are:
 - a minimum static WLL of 10 tons at minimum scope listed below;
 - a minimum dynamic (sea state 4) WLL of 2 tons at minimum scope listed below;
 - a minimum lift height over the vessel rail of 10 m;
 - a minimum outboard scope of the side of the vessel of 2 m; and
 - a crane whip cable that reaches the waterline
- The Vessel must be equipped with an electric or hydraulic cable reeler (for loading/removing mooring wire from mooring winch). DFO minimum requirements are:
 - must accommodate a wooden cable reel with an axle bore of Ø3", a flange diameter of Ø32" and a spool width of 24".
- The Vessel must provide a combination of interior and/or containerized laboratory space on deck for sample processing with a total minimum area of 104 m², and have:
 - 28 m of linear laboratory bench space to accommodate water sample extraction/preparation/and analyzing instrumentation;
 - a minimum of one (1) sink in each lab/container or a minimum total of three (3) sinks in the combined lab areas. The sinks must have a freshwater supply and the ability to dispose of seawater.
 - access to a clean source of running sea-water in at least one lab;
 - 2 working fume hoods; one in the radioisotope laboratory and at least one in the other laboratories;
 - supply power to each lab;
 - access to a ship-wide local area network;

- include a public address system and a means of communication (e.g., phone, UHF radio, etc.) in each lab; and
 - include a certified Radioisotope Laboratory (11 m²) minimally compliant with the Canadian Nuclear Safety Commission (CNSC) specifications for a general laboratory outline in the GD-52 Appendix C.
- The Vessel must provide access to navigation data (NMEA data strings for position, speed, and heading) in each lab.
- The Vessel must have sufficient dry space for storing DFO and partner equipment and sample boxes (minimum required is 30 m³).
- The Vessel must provide a minimum refrigerated storage space of 1.5 m³ and a minimum freezer storage space of 0.5 m³ OR has sufficient dry space to accommodate 3 refrigerators (total of 1.5 m³) and 1 freezer (total of 0.5 m³) for storage of scientific samples.

2.3 Technical, Operational and Organizational Environment

N/A

2.4 Method and Source of Acceptance

N/A

2.5 Reporting Requirements

N/A

2.6 Project Management Control Procedures

N/A

2.7 Change Management Procedures

N/A

2.8 Ownership of Intellectual Property

Delivery of goods/services does not lead to the creation of intellectual property

3.0 Other Terms and Conditions of the SOW

3.1 Authorities

Project Authority Name to be provided upon contract award.

3.2 DFO Obligations

In support of the successful completion of the spring 2019 Atlantic Zonal Offshore Monitoring Program, DFO will provide the following personnel, equipment, and mission planning information:

- DFO will provide 22 scientific personnel for the survey;
- DFO will provide a mission plan;
- DFO will work with the Contractor to obtain clearance for Marine Science Research for sampling in Greenland waters through DFO's Vessel Clearance process and Global Affairs Canada.
- DFO will provide zooplankton nets, Multinet, Optical profiler and XBT's required for the program; and
- Prior to the commencement of the contract, the Chief Scientists shall submit a written tentative mission plan that shall include:
 - date, time, and point of departure;
 - estimated time at sea;
 - estimated date, time, and point of arrival;
 - anticipated cruise track, including all station positions and area of operation;
 - statement of all scientific operations to be carried out; and
 - list of all scientific equipment and cargo to be mobilized on board the vessel.

3.3 Contractor's Obligations

Vessel and Crew

- Captain and crew will be expected to communicate in English and must be available for each 12 h shift to ensure successful communication with scientific personnel.
- Crew will be expected to accommodate two 12-hour science personnel shifts (e.g. 0600h-1800h and 1800h-0600h). Crew deckhand(s) will be expected to be available to operate winches and cranes during each science personnel shift.
- Upon contract award, Contractor will be expected to provide to DFO the Vessel's minimum acceptable safety and occupational health certification requirements for science personnel participating in the mission at sea.
- Crew will be expected to provide a familiarization tour of the ship for scientific personnel and inform them of safety equipment and procedures, ensuring the safety of equipment and personnel throughout duration of the contract, and provide safe working areas on the ship.
- Prior to the mission at sea, the Contractor will be expected to provide, or develop in collaboration with DFO, Safe Operating Procedures for the scientific operations identified in the Statement of Work.
- Prior to the mission at sea, the Contractor will be expected to provide, or develop in collaboration with DFO, Safe Operating Procedures for the storage, handling, use and disposal of chemicals on board the Vessel.
- The Vessel will be expected to be equipped with stores (e.g., storeroom, chemical locker) for the safe stowage of dangerous goods in accordance with regulations governing storage and separations of hazardous materials on board ships (International Maritime Dangerous Goods Code). Compliance with this requirement is subject to verification by Canada after contract award.
- The Vessel will provide space for one (1) mammal/bird observer to look out the forward and side windows on the bridge throughout the daylight period, each day at sea, including a small space for a laptop.
- Crew will be expected to assist with the loading and unloading of science equipment as required (e.g., shipboard crane operations, manual lifting if necessary, etc.).
- Crew will be expected to deploy/recover and/or assist with the deployment/recovery of oceanographic measurement devices and sea sampling equipment according to information provided by the Chief Scientist.
- A ship-supplied technician(s) is expected to be on board and available 24-hours to trouble shoot, repair, and maintain ship-supplied science equipment and manage associated data collection. The technician(s) will be expected to liaise with DFO science staff for the duration of the contract.
- The Vessel will provide satellite internet service available to science personnel for communication to shore with a minimum capacity of 20 GB over the 30 day period.
- The vessel and crew is expected to be available for the full period of the contract.
- The vessel and crew is expected to be able to stay at sea without calling port for a period of up to 27 days.
- The vessel is expected to be able to berth, and its crew disembark, at various ports around Nova Scotia, CANADA.

3.4 Location of Work, Work site and Delivery Point

The study area includes the Labrador Sea between the coast of Labrador, CANADA, and coast of GREENLAND and a section off the Scotian Shelf from within the Gulf Stream to the mouth of the Halifax harbor.

3.5 Language of Work

All work will be carried out in English Speaking Environments.

3.6 Special Requirements - LICENSES AND PERMITS

N/A

3.7 Security Requirements

There are no security requirements for this project.

3.8 Insurance Requirements

Upon contract award the successful bidder will be required to supply insurance as per the attached insurance conditions. Additionally, the following conditions must be met:

1. The Contractor must obtain Protection & Indemnity (P&I) insurance that must include excess collision liability and pollution liability. The insurance must be placed with a member of the International Group of Protection and Indemnity Associations or with a fixed market in an amount of not less than the limits determined by the *Marine Liability Act*, S.C. 2001, c. 6. Coverage must include crew liability, if it is not covered by Worker's Compensation as detailed in paragraph (2.) below.
2. The Contractor must obtain Worker's Compensation insurance covering all employees engaged in the Work in accordance with the statutory requirements of the Territory or Province or state of nationality, domicile, employment, having jurisdiction over such employees. If the Contractor is assessed any additional levy, extra assessment or super-assessment by a Worker's Compensation Board, as a result of an accident causing injury or death to an employee of the Contractor or subcontractor, or due to unsafe working conditions, then such levy or assessment must be paid by the Contractor at its sole cost.
3. The Protection and Indemnity insurance policy must include the following:
 - a. Additional Insured: Canada is added as an additional insured, but only with respect to liability arising out of the Contractor's performance of the Contract. The interest of Canada as additional insured should read as follows: Canada, represented by Public Works and Government Services Canada.
 - b. Waiver of Subrogation Rights: Contractor's Insurer to waive all rights of subrogation against Canada as represented by Fisheries & Oceans Canada and Public Works and Government Services Canada for any and all loss of or damage to the watercraft however caused.
 - c. Notice of Cancellation: The Insurer will endeavour to provide the Contracting Authority thirty (30) days written notice of cancellation.
 - d. Cross Liability/Separation of Insureds: Without increasing the limit of liability, the policy must protect all insured parties to the full extent of coverage provided. Further, the policy must apply to each Insured in the same manner and to the same extent as if a separate policy had been issued to each.
 - e. Litigation Rights: Pursuant to subsection 5(d) of the *Department of Justice Act*, S.C. 1993, c. J-2, s.1, if a suit is instituted for or against Canada which the Insurer would, but for this clause, have the right to pursue or defend on behalf of Canada as an Additional Named Insured under the insurance policy, the Insurer must promptly contact the Attorney General of Canada to agree on the legal strategies by sending a letter, by registered mail or by courier, with an acknowledgement of receipt.

For the province of Quebec, send to:
Director Business Law Directorate,
Quebec Regional Office (Ottawa),
Department of Justice,
284 Wellington Street, Room SAT-6042,
Ottawa, Ontario, K1A 0H8

For other provinces and territories, send to:
Senior General Counsel,
Civil Litigation Section,
Department of Justice

234 Wellington Street, East Tower
Ottawa, Ontario K1A 0H8

4. A copy of the letter must be sent to the Contracting Authority. Canada reserves the right to co-defend any action brought against Canada. All expenses incurred by Canada to co-defend such actions will be at Canada's expense. If Canada decides to co-defend any action brought against it, and Canada does not agree to a proposed settlement agreed to by the Contractor's insurer and the plaintiff(s) that would result in the settlement or dismissal of the action against Canada, then Canada will be responsible to the Contractor's insurer for any difference between the proposed settlement amount and the amount finally awarded or paid to the plaintiffs (inclusive of costs and interest) on behalf of Canada.

3.9 Travel and Living

There is no provision for travel and/or living expenses under this contract.

4.0 Project Schedule

4.1 Expected Start and Completion Dates

Project work will take place between May 2019 and June 15, 2019, and will consist of 30 working days (including 26 working days at sea).

4.2 Schedule and Estimated Level of Effort (Work Breakdown Structure)

TIMEFRAME AND DELIVERY REQUIREMENTS

Mobilization of the vessel at the port of Halifax, Nova Scotia, CANADA (May 2019*)

- DFO equipment loading, installation of laboratories, and safety inspection(s) (2 days)

Conduct Atlantic Zonal Offshore Monitoring Program (May to June 2019*)

- Monitoring Survey along predetermined sampling lines/stations (26 days at sea)

Demobilization: return to the port of Halifax, Nova Scotia, CANADA (June 2019*)

- Unloading of DFO equipment and survey samples (2 days)

** Specific dates and times for Mobilization, Departure, Arrival, and Demobilization will be determined in consultation with the vessel operator upon Contract award.*

5.0 Required Resources or Types of Roles to be Performed

The Contractor is required to provide the services of specific individuals with certification to perform the Work (e.g., Captain, Officers, Bosun, etc.). If specific individuals are identified in the Bid Proposal/Contract to perform the Work, the Contractor must provide the services of those individuals unless the Contractor is unable to do so for reasons beyond its control.

If the Contractor is unable to provide the services of any specific individual identified in the Bid Proposal/Contract, it must provide a replacement with similar qualifications and experience. The replacement must meet the criteria used in the selection of the Contractor and be acceptable to Canada. The Contractor must, as soon as possible, give notice to the Contracting Authority of the reason for replacing the individual and provide:

- the name, qualifications and experience of the proposed replacement; and
- proof that the proposed replacement has the required valid certificate(s), if applicable.

The Contractor must not, in any event, allow performance of the Work by unauthorized replacement persons.

Section B: Rated Requirements

- Bidder to provide details on their recent experience (up to 5 years) with conducting operation(s) that require extended period(s) of station keeping (i.e. >4 hours). Supporting documents could include for example: description of operation(s), list of missions and cruise reports/summaries.
- Bidder to provide details on their recent experience (up to 5 years) with conducting CTD-Rosette operations (i.e., Seabird 911Plus and rosette) (e.g., list of missions, dates, approximate number of casts and depths, cruise reports/summaries).
- Bidder to provide details on their recent experience (up to 5 years) with conducting scientific mooring operations (e.g., list of missions, dates, approximate number of deployments and recoveries, cruise reports/summaries).

6.0 Applicable Documents and Glossary

6.1 Applicable Documents

6.2 Relevant Terms, Acronyms and Glossaries

Acronyms	Definition
CTD profiler	Conductivity-Temperature-Depth profiler
LARS	Launch and recovery system
NMEA	National Marine Electronics Association
MultiNet	System for collecting Mesozooplankton samples at discrete depths in the water column
Rosette	System for collecting seawater samples at discrete depths in the water column
WLL	Working Load Limit

ANNEX "B" BASIS OF PAYMENT

The tender shall provide an all-inclusive cost on a 'Day' basis for the provision of all professional services, including all associated costs necessary to carry out the required work.

Payment will be made for costs reasonably and properly incurred in the performance of the work, in accordance with the Contractor's cost proposal and the Statement of Work.

All vessel operating costs: the cost of food for Fisheries and Oceans Canada (DFO) personnel and the crew, vessel maintenance and repair costs, fuel and oil, satellite internet service at the minimum amount specified in the Statement of Work, vessel transit to/from the Port of Halifax, NS, CANADA, and any vessel wharf fees for the duration of the mission are the responsibility of the Contractor.

Contract Period – Contract award to June 15, 2019

Total daily (all-inclusive) operating cost for the vessel for the provision of all professional services, including all associated costs necessary to carry out the required work:

Total Daily Cost \$ _____ in Canadian dollars (exclude HST/GST if applicable)

OR

*Total Daily Cost \$ _____ in _____ (include all applicable taxes)
specify currency

* Proposals submitted in other recognized standard global currencies (e.g., U.S. Dollar [US\$]; Euro [€]; Pound Sterling [£]) will be accepted, with the currency to be clearly identified. Proposals submitted in other recognized standard global currencies will be converted to Canadian dollars using the Bank of Canada daily exchange rate posted at Close of Business on the date bids are to be submitted (see: www.bankofcanada.ca/rates/exchange/). This value will be used for evaluation and potential contract purposes. Bidders are encouraged to seek clarity if uncertain what is considered to be a 'recognized standard global currencies'.

ANNEX "C" INSURANCE CONDITIONS

1. The Contractor must obtain Protection & Indemnity (P&I) insurance that must include excess collision liability and pollution liability. The insurance must be placed with a member of the International Group of Protection and Indemnity Associations or with a fixed market in an amount of not less than the limits determined by the [Marine Liability Act](#), S.C. 2001, c. 6. Coverage must include crew liability, if it is not covered by Worker's Compensation as detailed in paragraph (2.) below.
2. The Contractor must obtain Worker's Compensation insurance covering all employees engaged in the Work in accordance with the statutory requirements of the Territory or Province or state of nationality, domicile, employment, having jurisdiction over such employees. If the Contractor is assessed any additional levy, extra assessment or super-assessment by a Worker's Compensation Board, as a result of an accident causing injury or death to an employee of the Contractor or subcontractor, or due to unsafe working conditions, then such levy or assessment must be paid by the Contractor at its sole cost.
3. The Protection and Indemnity insurance policy must include the following:
 - a) Additional Insured: Canada is added as an additional insured, but only with respect to liability arising out of the Contractor's performance of the Contract. The interest of Canada as additional insured should read as follows: Canada, represented by Public Works and Government Services Canada.
 - b) Waiver of Subrogation Rights: Contractor's Insurer to waive all rights of subrogation against Canada as represented by Fisheries and Oceans Canada and Public Works and Government Services Canada for any and all loss of or damage to the watercraft however caused.
 - c) Notice of Cancellation: The Insurer will endeavour to provide the Contracting Authority thirty (30) days written notice of cancellation.
 - d) Cross Liability/Separation of Insureds: Without increasing the limit of liability, the policy must protect all insured parties to the full extent of coverage provided. Further, the policy must apply to each Insured in the same manner and to the same extent as if a separate policy had been issued to each.
 - e) Litigation Rights: Pursuant to subsection 5(d) of the [Department of Justice Act](#), S.C. 1993, c. J-2, s.1, if a suit is instituted for or against Canada which the Insurer would, but for this clause, have the right to pursue or defend on behalf of Canada as an Additional Named Insured under the insurance policy, the Insurer must promptly contact the Attorney General of Canada to agree on the legal strategies by sending a letter, by registered mail or by courier, with an acknowledgement of receipt.

For the province of Quebec, send to:

*Director Business Law Directorate,
Quebec Regional Office (Ottawa),
Department of Justice,
284 Wellington Street, Room SAT-6042,
Ottawa, Ontario, K1A 0H8*

For other provinces and territories, send to:

*Senior General Counsel,
Civil Litigation Section,
Department of Justice
234 Wellington Street, East Tower
Ottawa, Ontario K1A 0H8*

A copy of the letter must be sent to the Contracting Authority. Canada reserves the right to co-defend any action brought against Canada. All expenses incurred by Canada to co-defend such actions will be at Canada's expense. If Canada decides to co-defend any

action brought against it, and Canada does not agree to a proposed settlement agreed to by the Contractor's insurer and the plaintiff(s) that would result in the settlement or dismissal of the action against Canada, then Canada will be responsible to the Contractor's insurer for any difference between the proposed settlement amount and the amount finally awarded or paid to the plaintiffs (inclusive of costs and interest) on behalf of Canada.

ANNEX "D" ADDITIONAL VESSEL CONDITIONS

1. The Contractor must keep and maintain the vessel, engines, gear and equipment in good and sufficient repair for the duration of the Contract and must pay for all necessary repairs, renewals and maintenance.
2. The Contractor must:
 - 2.1 indemnify and save harmless Canada from and against any claim for loss or damage to the vessel or any other property, engines, gear, or equipment, arising from the charter, and for injury or property of persons aboard the vessel, excepting any injury or damage to property of Canada's employees or agents;
 - 2.2 ensure that the operations are only carried out by Canada's authorized representatives as specified by the Project Authority;
 - 2.3 ensure that approved personal floatation devices for all persons on board are in readily accessible positions at all times;
 - 2.4 ensure that the use or possession of illegal drugs or alcohol is prohibited. If any member of the crew is found under the influence of such drugs and/or intoxicants while on duty, it will be cause for termination of the Contract for default.
3. If the vessel is disabled or is not in running order or is laid up without the consent of Canada, then Canada will not be liable for payment for the hire of the vessel during this period. If this period exceeds one week, Canada may terminate the Contract immediately for default.
4. If any gear or equipment necessary for the efficient operation of the vessel for the purpose of the Contract is not in good working order for any period of time, then the payment of hire will cease for the lost time, and if during the voyage the speed is reduced by a defect in or breakdown of any part of the hull, machinery or equipment, the time lost will be deducted from the hire. Canada will be the sole judge of the capability of the vessel.
5. If the vessel is unable to operate safely in the work area because of sea or weather conditions, as agreed to by the representative of the Contractor and the representative of Canada, then the charter for the day will be terminated and a pro-rated payment made to the Contractor for that period engaged in the Work in accordance with the terms of the Contract.
6. If the particulars furnished by the Contractor and set out in the Contract are incorrect or misleading, Canada may, at Canada's discretion, terminate the Contract for default.
7. If the vessel is lost or damaged to such an extent as to justify abandonment as for a constructive total loss, Her Majesty may terminate the Contract.
8. The Contractor, by these presents, does hereby remise, release and forever discharge Her Majesty and all employees of Her Majesty from all manners of action, claims or demands, of whatever kind or nature that the Contractor ever had, now has or can, shall or may hereafter have by reason of damage to or personal injury, or both as a result of or in any way arising out of the acts or omission of Her Majesty or employees of Her Majesty pursuant to the terms and conditions of the Agreement or any Contract.
9. The Contractor acknowledges and agrees that this Agreement or any Contract shall in no way replace, substitute or derogate from any of the rights powers if Her Majesty pursuant to the Fisheries Act of Canada or any other statute, law or regulation of Canada.

-
10. If a provision or term or condition of this Agreement or any Contract is wholly or partially invalid, this Agreement or Contract shall be interpreted as if the invalid provision, term or condition had not been a part of this Agreement or Contract.
 11. The Contractor shall permit Her Majesty all access and egress that is request by Her Majesty to accomplish all inspections deemed necessary by Her Majesty to administer the terms and conditions of this Agreement or Contract.
 12. The vessel shall not participate in a commercial fishery while under the terms and conditions of this Agreement or Contract.
 13. The Contractor certifies that any price/rate shown herein has been computed in accordance with generally accepted accounting principles applicable to all like products or services sold by the Contractor, that such price / rate is not in excess of the lowest price / rate charged anyone else including their most favoured customer for like quality and quantity of the service, and does not include the provision for discount or commission to selling agents.

ANNEX "E"

EVALUATION CRITERIA

BIDDERS' PROPOSAL

The Bidders' proposal must demonstrate that similar services to those described in the Statement of Work (Annex "C" herein) have been provided and the information provided will be used to assess against both the Mandatory Criteria and the Point-Rated criteria. The Bidder shall cite specific examples from their work history that will address both criterions. For the purposes of this Request for Proposal (RFP), "experience" shall refer to the experience the Bidders' Commanding Officer and crew have in performing the operation mentioned in the criterion

The Bidders' proposal should contain a statement of the name under which the Charter is legally incorporated and a statement of the Canadian or foreign ownership of the firm, if applicable.

In addition to addressing the noted requirements, the Bidder's **Financial Proposal** (reference Annex "B" herein) must include a daily rate for the vessel charter costs.

MANDATORY CRITERIA:

Proposals will be evaluated in accordance with the mandatory evaluation criteria as detailed herein. Bidders' Proposals must clearly demonstrate that they meet all Mandatory Requirements for the proposal to be considered for further evaluation. Proposals not meeting the mandatory criteria will be excluded from further consideration.

Those proposals that are found to meet the Mandatory Criteria shall be evaluated further against the Point-Rated Criteria. All compliant proposals will be ranked based on highest combined Point-Rated Criteria points and Cost evaluation points.

*****The Bidder must include the following tables in their proposal, indicating that their proposal meets the Mandatory Criteria or Point Rated Criteria, providing the proposal page number, section that contains information to verify that the criteria has been met or inserted the information within the appropriate table.**

EVALUATION FORM – MANDATORY CRITERIA

MANDATORY CRITERIA	Meets Criteria Yes/No	BIDDER RESPONSE (response should make reference to the relevant proof in bidder proposal and/or appended documentation).
Vessel Certification and Documentation		
<p>M1. The Bidder must provide an unconditional and valid copy of the vessel's Transport Canada certificate <u>Minimum Safe Manning Document – Convention</u> with a Trading Area of <i>Unlimited Voyage</i>, or international equivalent. Compliance with this certification requirement is subject to verification by Canada during the bid evaluation period (certificate must be valid at time of bid closing) and after contract award (certificate must be valid for the duration of the contract).</p>		
<p>M2. The Bidder must clearly demonstrate that the vessel has a tonnage of >500GT and provide a valid copy of the vessel's Transport Canada tonnage certificate (or recognized organization) and Safety Management Certificate or international equivalent. Compliance with this certification requirement is subject to verification by Canada during the bid evaluation period (certificate must be valid at time of bid closing) and after contract award (certificate must be valid for the duration of the contract).</p>		
<p>M3. The Bidder must provide a valid copy of the vessel's Transport Canada (or recognized organization) Safety Equipment Certificate or international equivalent. Compliance with this certification requirement is subject to verification by Canada during the bid evaluation period (certificate must be valid at time of bid closing) and after contract award (certificate must be valid for the duration of the contract).</p>		

MANDATORY CRITERIA	Meets Criteria Yes/No	BIDDER RESPONSE (response should make reference to the relevant proof in bidder proposal and/or appended documentation).
<p>M4. The Bidder must provide documentation from an insurance broker, or an insurance company licensed to operate in Canada, stating that the Bidder, if awarded the contract as a result of the bid solicitation, can be insured in accordance with all conditions including Insurance Requirements.</p>		
<p>M5. The Bidder must provide proof (copy) that the Captain(s) and Officer(s) of the vessel possesses a valid certificate of competency that meets or exceeds the operation for size (gross tonnage) of the vessel and the area of Work (<i>Unlimited Voyage</i> or international equivalent). Compliance with this certification requirement is subject to verification by Canada during the bid evaluation period (certificate must be valid at time of bid closing) and after contract award (certificate must be valid for the duration of the contract).</p>		
<p>M6. The Bidder must provide the section of their Safety Management Plan that states that all crew members are required to have valid Marine Emergency Duty (MED) A1 certificates or Standard for Training, Certification and Watchkeeping (STCW Basic Safety). Compliance with this certification requirement is subject to verification by Canada after contract award (certificates must be valid for the duration of the contract).</p>		
Vessel Particulars		
<p>M7. The Bidder must clearly demonstrate that the Vessel is equipped for continuous operations for a period of up to 30 days (e.g., endurance range of Vessel, provisions, water making system, etc.).</p>		

MANDATORY CRITERIA	Meets Criteria Yes/No	BIDDER RESPONSE (response should make reference to the relevant proof in bidder proposal and/or appended documentation).
M8. The Bidder must clearly demonstrate that the Vessel can accommodate a minimum of 22 scientific personnel (individuals consisting of both genders) for the duration of the mission. This includes: M8.1. provide sleeping accommodations (minimum of 22 berths and max of 4 person/cabin); M8.2. provide a minimum of 3 on-board meals per day; M8.3. provide drinking water, toilets, sinks, showers and hot water;		
M9. The Bidder must clearly demonstrate that the Vessel has sufficient lifesaving equipment for both the crew and 22 scientific personnel.		

MANDATORY CRITERIA	Meets Criteria Yes/No	BIDDER RESPONSE (response should make reference to the relevant proof in bidder proposal and/or appended documentation).
<p>M10. The Bidder must clearly demonstrate that the Vessel is equipped with an oceanographic water-sampling system that consists of:</p> <p>M10.1. 24-bottles oceanographic rosette with 10- or 12-litre (L) bottles;</p> <p>M10.2. a launch and recovery system (LARS) – winch (minimum of 50 HP) and a crane or A-frame – to launch and recover the oceanographic rosette;</p> <p>M10.3. a dedicated metering block;</p> <p>M10.4. a minimum of 7,000 m of conducting cable on the winch (52 kN minimum breaking strength);</p> <p>M10.5. a Seabird Electronics SBE 911Plus CTD system with dual Temperature, Conductivity and Dissolved Oxygen sensors (DFO may provide additional sensors to be interfaced to the CTD). The operator must demonstrate that the CTD system has been serviced and calibrated within the last 12 months;</p> <p>M10.6. a CTD rosette-mounted bottom-detection system capable of detecting when the rosette is approaching 30 m above the ocean bottom in order to stop the winch 5 m before the CTD rosette hits the ocean bottom (10 m in rough weather); and</p> <p>M10.7. a dedicated work space (minimum area - 2.4 m X 2.4 m] on the working deck for handling the rosette before launching and for sampling bottles upon its recovery.</p>		

MANDATORY CRITERIA	Meets Criteria Yes/No	BIDDER RESPONSE (response should make reference to the relevant proof in bidder proposal and/or appended documentation).
<p>M11. The Bidder must clearly demonstrate that the Vessel is equipped with a LAunch and Recovery System (LARS) that can accommodate the deployment of zooplankton nets, preferably from the side of the ship. The system should include:</p> <p>M11.1. winch with a minimum of 2,000 m of wire rope or cable (360 kg WLL);</p> <p>M11.2. a dedicated metering block;</p> <p>M11.3. a crane or A-Frame, and;</p> <p>M11.4. a source of seawater must be available nearby to wash down nets.</p>		
<p>M12. The Vessel must be equipped with a Launch and Recovery System (LARS) that can accommodate the deployment of a MultiNet system. The same water-sampling LARS system could be used, but switching instruments (between the CTD-Rosette and Multinet systems) must take 10 minutes or less. The system should include:</p> <p>M12.1. winch with a minimum of 2,000 m of conducting cable (680 kg WLL);</p> <p>M12.2. a dedicated metering block to accommodate wire size and minimum bend radius specification;</p> <p>M12.3. minimum area for on deck storage - 1.5 m X 2.0 m);</p> <p>M12.4. a crane or A-Frame (with minimum clearance height of 7m), and;</p> <p>M12.5. a source of seawater must be available nearby to wash down nets.</p>		
<p>M13. The Bidder must clearly demonstrate that the vessel is equipped with a hull mounted echosounder capable of deep water sounding to a depth of at least 6,000m with a graphical display and serial NMEA (National Marine Electronics Association) depth output.</p>		
<p>M14. The Bidder must clearly demonstrate that the Vessel has a minimum unobstructed working deck space of 36 m² to accommodate mooring operations.</p>		

MANDATORY CRITERIA	Meets Criteria Yes/No	BIDDER RESPONSE (response should make reference to the relevant proof in bidder proposal and/or appended documentation).
<p>M15. The Bidder must clearly demonstrate that the Vessel has a minimum storage space of 36 m² for mooring equipment. Whether the equipment is stored on deck or within the cargo hold, it needs to be accessible at sea from the working deck area where mooring operations will be conducted</p>		
<p>M16. The Bidder must clearly demonstrate that the Vessel is equipped with a fantail A-frame for mooring operations and must provide its specifications. DFO's minimum requirements are M16.1. a minimum clearance height of 6 m; M16.2. a minimum width 3 m; M16.3. the capability to swing inboard 2 m and outboard 1.5 m; and M16.4. a minimum static Working Load Limit (WLL) of 5 tons.</p>		
<p>M17. The Bidder must clearly demonstrate that the Vessel is equipped with a block that can be mounted on the fantail A-frame and provide the specifications for this block. Block minimum requirements for DFO is: M17.1. WLL of 5 tons M17.2. sheave Ø 12 inches [30cm] M17.3. minimum mouth dimensions 4" [10 cm] X 4" [10 cm]</p>		
<p>M18. The Bidder must clearly demonstrate that the Vessel is equipped with a mooring winch that is positioned in-line for use with the fantail A-frame located on the stern. The Bidder must provide the specifications for the winch. The minimum requirements for the mooring winch for DFO are: M18.1. minimum drum barrel of Ø15" [38 cm]; M18.2. spooling capacity of 1,000 m for Ø1/4" mooring wire, and; M18.3. minimum line pull of 900 kg.</p>		

MANDATORY CRITERIA	Meets Criteria Yes/No	BIDDER RESPONSE (response should make reference to the relevant proof in bidder proposal and/or appended documentation).
<p>M19. The Bidder must clearly demonstrate that the Vessel is equipped with a telescoping or knuckle boom marine crane and provide the specifications. DFO minimum requirements are:</p> <p>M19.1. a minimum static WLL of 10 tons at minimum scope listed below;</p> <p>M19.2. a minimum lift height over the vessel rail of 10 m;</p> <p>M19.3. a minimum outboard scope of the side of the vessel of 2 m; and</p> <p>M19.4. a crane whip cable that reaches the waterline</p>		
<p>M20. The Bidder must clearly demonstrate that the Vessel is equipped with an electric or hydraulic cable reeler (for loading/removing mooring wire from mooring winch). DFO minimum requirements are:</p> <p>M20.1. must accommodate a wooden cable reel with an axle bore of Ø3", a flange diameter of Ø32" and a spool width of 24".</p>		

MANDATORY CRITERIA	Meets Criteria Yes/No	BIDDER RESPONSE (response should make reference to the relevant proof in bidder proposal and/or appended documentation).
<p>M21. The Bidder must clearly demonstrate that the Vessel can provide a combination of interior and/or containerized laboratory space on deck for sample processing with a total minimum area of 104 m², and have:</p> <p>M21.1. 28 m of linear laboratory bench space to accommodate water sample extraction/preparation/and analyzing instrumentation;</p> <p>M21.2. a minimum of one (1) sink in each lab or a minimum total of three (3) sinks in the combined lab areas. The sinks must have a freshwater supply and the ability to dispose of seawater.</p> <p>M21.3. access to a clean source of running sea-water in at least one lab;</p> <p>M21.4. two (2) working fume hoods: one in the radioisotope laboratory and at least one in the other laboratories;</p> <p>M21.5. supply power to each lab;</p> <p>M21.6. access to a ship-wide local area network, and;</p> <p>M21.7. include a public address system and a means of communication (e.g., phone, UHF radio, etc.) in each lab, and;</p> <p>M21.8. include a certified Radioisotope Laboratory (11 m²) minimally compliant with the Canadian Nuclear Safety Commission (CNSC) specifications for a general laboratory outline in the GD-52 Appendix C.</p>		
<p>M22. The Bidder must clearly demonstrate that the Vessel can provide access to navigation data (NMEA data strings for position, speed, and heading) in each lab.</p>		
<p>M23. The Bidder must clearly demonstrate that the Vessel has sufficient dry space for storing DFO and partner equipment and sample boxes (minimum required is 30 m³). The Bidder must state how much dry space is available on the Vessel.</p>		

MANDATORY CRITERIA	Meets Criteria Yes/No	BIDDER RESPONSE (response should make reference to the relevant proof in bidder proposal and/or appended documentation).
M24. The Vessel must provide refrigerated storage space of 1.5 m ³ and freezer storage space of 0.5 m ³ OR has sufficient dry space to accommodate 3 refrigerators (total of 1.5 m ³) and 1 freezer (total of 0.5 m ³) for storage of scientific samples.		

EVALUATION FORM – POINT-RATED CRITERIA

Proposals meeting **ALL** Mandatory Criteria will be evaluated and rated against the following Point-Rated Criteria, using the evaluation factors specified for each criterion. It is imperative that these criteria be addressed in sufficient depth in the Bidders' proposal to substantiate the Bidder's response and to permit the Evaluation Team to rate the proposals accordingly.

RATED CRITERIA	Criteria #	BIDDER RESPONSE (bidder must substantiate response as much as possible)
<p>Bidder to provide details on their recent experience (up to 5 years) with conducting operation(s) that require extended period(s) of station keeping (i.e. >4 hours). Supporting documents could include for example: description of operation(s), list of missions and cruise reports/summaries.</p> <ul style="list-style-type: none"> • Experience in the last 1-2 years: 25 points • Experience in the last 3-5 years: 10 points • Experience in both periods above: 35 points 	R1	
<p>Bidder to provide details on their recent experience (up to 5 years) with conducting CTD-Rosette operations (i.e., Seabird 911Plus and rosette) (e.g., list of missions, dates, approximate number of casts and depths, cruise reports/summaries).</p> <ul style="list-style-type: none"> • Experience in the last 1-2 years: 25 points • Experience in the last 3-5 years: 10 points • Experience in both periods above: 35 points 	R2	

RATED CRITERIA	Criteria #	BIDDER RESPONSE (bidder must substantiate response as much as possible)
Bidder to provide details on their recent experience (up to 5 years) with conducting scientific mooring operations (e.g., list of missions, dates, approximate number of deployments and recoveries, cruise reports/summaries). <ul style="list-style-type: none"> • Experience in the last 1-2 years: 25 points • Experience in the last 3-5 years: 10 points • Experience in both periods above: 35 points 	R3	

BASIS OF SELECTION

HIGHEST COMPLIANT COMBINED RATING OF TECHNICAL MERIT AND PRICE

The compliant bidder with the highest combined rated criteria points (70%) and price (30%) shall be selected as the best value supplier. An example of Highest Compliant Combined Rating of Technical Merit and Price is shown below:

Best Value Determination(example)

	Bidder 1	Bidder 2	Bidder 3
Rated Criteria Points	95*	80	90
Bid Price	\$30,000.00	\$28,500.00	\$27,500.00**
Calculation			
	Technical Points	Rated Price Points	Total Points
Bidder 1	95/95* x 70% = 70.0	\$27,500**/30,000 x 30% = 2.75	70.0 + 2.7 = 72.7
Bidder 2	80/95* x 70% = 58.95	\$27,500**/28,500 x 30% = 2.89	58.9 + 2.8 = 61.7
Bidder 3	90/95* x 70% = 66.32	\$27,500**/27,500 x 30% = 8.25	66.3 + 8.3 = 74.6
* Represents the highest technical score ** Represents the lowest priced proposal			
Assumption: The Highest technical score and lowest price proposal received full rated percentage and other proposals are pro-rated accordingly.			
The winner is the bidder scoring the highest total points established by adding the technical and rated price points.			
Based on the above calculation, a contract would be awarded to Bidder 3.
