This Amendment #004 is raised to issue the following changes:

Q1: Section 01 14 00 – 1.3.5 “The Contractor will be accompanied on site at all times with 1 CCG representative. Provide helicopter transport for CCG representative with works crews”. If installation crews are camping onsite, will the CCG representative provide their own accommodations?

A1: Yes, if camping on site the CCG representative will provide their own accommodations.

Q2: Is this new tower to be located close to an existing “Brain box” or structure to house all the electronics or is there a new structure? Mainly for grounding costing, IE: do we need to tie into an existing bus bar/ grounding network of the existing structure?

A2: The new tower installation is going in first, independent of the existing building and before the new building installation, they will not need to tie into the existing building ground ring. The CCG Representative will be responsible for this tie in once the new building is installed later.

Q3: Can you confirm if we are to include the installation of the top radar antenna (High Gain X-Band) and lines or will this be completed by others?

A3: Installation of the top radar antenna and lines is not a part of the contract.

Q4: Is there a specific location for the new tower to be installed? This will be required to determine the length of wave guide bridge.

A4: Specific location of tower will be identified on site by the CCG Representative. The wave guide bridge is not a part of the contract.

DELETE: CETA Trade Agreement is not applicable to this solicitation.

All other terms and conditions remain unchanged.
