Amendment No. 001 issued to amend the above-noted solicitation as follows:

PART 1) Publish answers to enquiries received from potential bidders (Q&As)

- Q1. Is the tower lighting to be supplied as part of this tender?
A1. Tower lighting is not to be supplied.
- Q2. Can you confirm if there is an error in the Appendix C – Antenna Schedule Table 1 CCG equipment? Antennas noted as 9 & 10 have the same elevation and azimuth. Both antennas at the same elevation and azimuth may not be able to be installed on the tower as per these specs.
A2. This is an error. Antenna #10 is at azimuth 300° per the Antenna Layout drawing.
- Q3. For this tower design we will require antenna model numbers or physical sizes for the future panel antennas noted in Appendix C – Antenna Schedule Table 2 – Future equipment. Are you able to provide this info? If not can you confirm who the carrier will be as we may be able to use information at hand from other projects.
A3. Assume panel antennas are Commscope-Andrew UNNPX306R3 Argus Antennas
