Questions and Answers – Series 5

Q1. In reference to the Mandatory Criteria, page 32 of 44 of the RFP, M1, would the RCMP consider accepting a resource with a bachelor's degree in Electrical Engineering, instead of **a professional engineer** with a bachelor's degree in Electrical Engineering.?

A1. No, the RCMP requires the services of a professional engineer to work on microwave link-related tasks that require attestation of P. Eng. to address ISEDC requirements.

Q2. Due to the complexity of logistics when it comes to properly sourcing, qualifying relevance of experience to the requirement, and obtaining and confirming references, we respectfully request a one week extension to the submittal date to May 9, 2018.

A2. Please see the amendment below.
