Amendment 001

This amendment is issued to answer the following questions:

All valves are ship side valves and cannot be removed for additional measurements until the dry-docking period in which they are to be replaced.

1. Is pricing required on ALL items together to be considered responsive? In Annex "B" Line 1, it would appear this is the case.
a) Yes, bidders must submit pricing on all 29 valves to be considered responsive.
2. Is this being awarded on aggregate basis?
a. Yes the award will be made based to the lowest priced evaluated (Annex B) compliant bidder
3. Are there any Part Numbers or manufacturers that the client can provide?
a. No, as long as the dimensions and material of each valve stated in the statement of requirements is met.
4. Are they any additional drawings available?
a. All available dimensions and material have been attached. Valves are ship side valves and cannot be removed for additional measurements until the dry-docking period in which they are to be replaced.
5. Will this tender be awarded as one contract?
a. The contract will be awarded as one contract for all 29 valves.
6. Will you evaluate bids that are not able to quote on every model? IE best price of each item will be awarded or only one contract.
a. A responsive bid will need to bid on all 29 valves with pricing and complete pricing information in Annex B. The evaluation and award will be based on the lowest price bid provided the line item "Total", Annex B.
7. What is the flange on the valves. It's not listed.
a. The valve flanges are class 150.
