

W6399-18-KD15 RFSO Q&A – EN
Amendment 003

The purpose of this amendment is as follows:

1. To provide the DND Responses to Bidder Questions.
2. All other terms and conditions remain unchanged.

#E	Document	Ref. Page	Section	Question	DND Response	Revision to RFP
11E	RFP	N/A	N/A	Would you be able to clarify if a Merrowed border is required, or if a simple embroidered border would be acceptable?	A merrowed border is mandatory where specified in the technical supplements.	Nil.
12E	Annex F & G	57 of 94 59 of 94	Appendix F1, Backing Appendix G1, Backing	This is in regards to the embroidery contract on the buy and sell site. I was going through everything and seen that the rank patches have a merrowed edge and the name tags and flags have a stitched edge. I was just looking for a little clarification as to how the velcro needs to be attached to the flags and name tags. Is it attached by the embroidered stitched edge, or is it acceptable for the velcro to be sewn on after the fact with the same coloured thread as the border? Any help would be greatly appreciated.	In accordance with the technical supplements for the flags and name tapes, the backing is to be applied in accordance with para 2.2.5 of Annex H, which states: "The backing must match the base fabric and be glued or laminated to the base fabric". In addition, in accordance with para 2.3.1 of Annex H: "The embroidery stitches must penetrate the base and backing materials and must be compactly placed to prevent the base material from showing between the stitches".	Nil.
