Amendment no 10 is raised to respond to the question received from the industry

Question:

The sleeve pocket position does not appear to not give enough room for the 11cm of height of the heraldic badge. We estimate that the sleeve pocket should be moved lower by 38mm to allow enough room for the upper sleeve loop tape patches to be sewn on without overlapping the sleeve pocket for size 7040.

Answer:

The loop tape patch must be sewn 1/2 –inch below the shoulder seam. The loop tape must not overlap the pocket.

If the space between the shoulder seam and pocket do not allow for this, please move the pocket lower to accommodate this placement (approximately 38-40mm), also, allowing 0.5cm clearance from the loop tape patch to the pocket. Pockets on both sides must be on the same position and level on each sleeve.

If bidders have already sewn their sample and have not considered this, please include a deviation note acknowledging receipt of this amendment and that the change will be made for pre-production and production, in all sizes.

All other terms and conditions remain unchanged
