Amendment 01

This amendment is being raised to distribute information from the bidder's conference.

A) BIDDERS CONFERENCE ATTENDEES

Vendor
Acadia Construction
Harbuilt Construction
Advantage Construction

Contact information for the attendees are available upon request and approval from the vendors.

B) QUESTIONS AND ANSWERS

Q1 Can holes be cut through the existing floor system to allow for the install of jacking pads (concrete) that can remain after the repair is completed?

A1 As this is a heritage building, we do not want to alter any of the existing building other than is specified as part of this project. The pads are intended to be placed on the existing floor structure using the wood blocking (or other approved material) pad sizes outlined in the drawings and specifications.

Q2 Is there a representative available after the project has been awarded from FHBRO (Heritage Group)?

A2 Contact information for a representative will be available to the winning contractor.

Q3 What will the access to site for the contractor be?

A3 A combination lock will be installed at the main gate and also to the Fort itself. Combinations will be given out.

Q4 Is there a preferred log supplier?

A4 There is no preferred or endorsed supplier so long as material meets the outlined specifications. There may be a local supplier north of Highway #1 across from Maple Creek that can supply. Name and contact info provided by others: John Leslie – 306-330-9057 – Local Log Supplier

Q5 What is the log diameter?

A5 Minimum and maximum log diameters have been outlined in the "Log Selection Criteria". Also noted in this section is to "select Logs with Minimum Taper".

Q6 What is FHBRO?

A6 FHBRO is an abbreviation used to describe Federal Heritage Buildings Review office. They are part of the Federal Government and their role is to provide assistance to Government departments in the protection of their heritage buildings.

All other terms and conditions remain unchanged.
